## ***Office of the State Comptroller***

The State Comptroller is one of the six State officers elected to hold office for a term of four years. The office of the State Comptroller was established in 1786 by an act of the General Assembly. The Constitutional Amendment of 1836 provided that the Comptroller be elected by the people in a manner similar to that of other State officers. Since 1838 this method has been in effect.

The Comptroller prescribes the mode of keeping and rendering all public accounts. She is required to adjust and settle all public accounts and demands, excepting grants and orders of the General Assembly. The Comptroller also renders a monthly accounting of the State's financial condition.

In addition, the Comptroller approves and records all obligations against the State. She maintains all official accounting records and is responsible for the employee payrolls for all State agencies, departments, and institutions. Her office administers all Retirement Systems other than Teachers' retirement. Additionally, the Comptroller administers numerous miscellaneous appropriations of the State.

55 ELM STREET  
HARTFORD, CONNECTICUT 06106-1775

MARK E. OJAKIAN  
DEPUTY COMPTROLLER

October, 2006

To the Citizens of the State of Connecticut

It is our privilege to present this Comprehensive Annual Financial Report (CAFR) of the State of Connecticut for the fiscal year ended June 30, 2005. This report was prepared in its entirety by the Office of the State Comptroller. The Comptroller is responsible for state accounting practices and is committed to sound financial management and governmental accountability.

We believe that the financial statements are fairly presented in all material aspects. They are designed to set forth the financial position of the state, its operating results and the changes in net assets or fund balances of the major funds and non-major funds in the aggregate. All required disclosures have been included to assist the public, state policy makers, and the financial community in understanding the state's financial affairs.

The CAFR is designed to be in conformance with generally accepted accounting principles (GAAP) for governmental units as promulgated by the Governmental Accounting Standards Board as well as the reporting requirements prescribed by the Government Finance Officers Association. The Management's Discussion and Analysis (MDA) contains information that prior to 2002 was found within the letter of transmittal. In addition to the basic financial statements, the CAFR includes: combining financial statements that present information by fund category, certain narrative information that describes the individual fund categories, supporting schedules, and statistical tables.

The Fiscal Year 2005 CAFR was published nine months late due to a related eighteen month delay in generating the 2004 CAFR. The late filing of the Fiscal Year 2004 CAFR, as fully detailed in last year's report, delayed the start of work on the Fiscal Year 2005 closing adjustments and financial statements.

## **PROFILE OF THE STATE OF CONNECTICUT**

Connecticut became the fifth state of the United States on January 9, 1788. Its borders encompass 5,009 square miles. Within its compact borders, Connecticut has forested hills, new urban skylines, shoreline beaches, and historic village greens. There are classic Ivy League schools, modern expressways, corporate offices, and small farms. Connecticut is a thriving center of business as well as a vacation location. It is both a New England State, and suburban to New York City. The population of Connecticut was 3,510,297 according to the July 1, 2005 U.S. Census estimates. Five large cities, Bridgeport, New Haven, Hartford (the State Capitol since 1875), Stamford and Waterbury, have populations in excess of 100,000 residents.

State Government in Connecticut has three branches: executive, legislative and judicial. Voters elect six state officers: Governor, Lieutenant Governor, Treasurer, Comptroller, Secretary of State and Attorney General. All have four-year terms. Connecticut also elects two U.S. Senators and five U.S. Representatives. Connecticut's General Assembly or legislature has a Senate and a House of Representatives.

The regular sessions of the General Assembly are held every year. These sessions run from January through June in odd-number years and from February through May in even-number years. The General Assembly reconvenes in special session to deal with emergencies or bills or appropriations vetoed by the Governor. Members of both houses represent districts based on population. There are currently 36 State Senators and 151 State Representatives. Members of the General Assembly are elected to two-year terms. The Judicial Department is composed of the Superior, Appellate and Supreme courts. Except for judges of the probate court, who are elected by the voters of the town or district that they serve, all judges are nominated by the Governor and appointed by the General Assembly.

Connecticut has no system of county government. Below the state level, governing units consist of 169 municipalities. The General Statutes of Connecticut provide procedures for the creation of many types of local special purpose authorities, districts and similar bodies. Under Connecticut law, all municipal governmental bodies have only the powers specifically granted to them by the state and the ancillary powers that are necessarily implied by the powers explicitly granted.

## **ECONOMIC CONDITION AND OUTLOOK**

After almost eight years of solid economic growth, Connecticut began to experience payroll job losses in Fiscal Year 2001. In Fiscal Years 2001, 2002 and 2003 the state's payroll job losses totaled 13,800, 12,600 and 27,200 respectively. After three successive years of job losses, in Fiscal Year 2004, the state again experienced gains in payroll employment. In Fiscal Years 2004 and 2005, Connecticut added 6,800 and 14,700 payroll jobs respectively.

Connecticut's payroll employment totaled 1,663,900 at the end of Fiscal Year 2005. The Fiscal Year 2005 job gain represented a 0.9 percent rise in employment as compared to a 1.5 percent job increase nationally during the same period.

Over the past ten years, Connecticut has experienced a shift in the industrial make-up of its workers with manufacturing jobs being replaced by service sector jobs. This is a trend that began several decades ago. In the last ten years, manufacturing employment in Connecticut has declined by almost 30 percent while during the same period employment in professional and business services grew by 8.3 percent, financial services saw growth of 6 percent and the leisure and hospitality industry grew by over 14 percent. Despite these shifts, manufacturing continues to play an important role in Connecticut's economic life contributing approximately 12 percent of the state's workforce. Between 2004 and 2005 real Gross State Product in Connecticut grew at a 6.6 percent rate.

Connecticut's unemployment rate was 4.9 percent at the end of Fiscal Year 2005 compared to a national rate of 5.0 percent. One reason for the state's relatively low unemployment rate is stagnation in its labor force growth. Between Fiscal Years 1995 and 2005, Connecticut's labor force grew just 4.2 percent. Nationally during this period the labor force grew 13.1 percent. Reversing the trend of a declining state labor force will prove important to Connecticut's long-term economic growth potential. A slight acceleration in the state's population growth has been observed since 1996. A continuation of this trend should also contribute to labor force growth.

Connecticut continues to be a national leader in income measurements. Connecticut's 2005 per capita income of \$47,819 was 38.3 percent above the national average of \$34,586. Connecticut's housing market remained strong throughout the recent recession. Historically low interest rates contributed to the strong real estate activity. Home sales advanced at double-digit growth rates as did home prices.

## MAJOR POLICY INITIATIVES

### **Health Care Programs**

The Fiscal Year 2005 budget included \$14.25 million to repeal various Medicaid co-payment requirements passed in 2003. The budget also included \$17.69 million to restore Medicaid eligibility cuts and to eliminate proposed premiums. Within the pharmacy assistance ConnPACE program the Fiscal Year 2005 budget provided \$1.5 million to eliminate asset testing and incorporated a net \$16.4 million in savings associated with the integration of ConnPACE with the federal Medicare pharmacy benefit program (part D). The budget also included expanded savings associated with the extension of a Preferred Drug List (PDL) under the Medicaid, ConnPACE, and General Assistance programs.

### **Increase Funding to Private Social Service Providers**

The Fiscal Year 2005 budget contained \$12.8 million to provide a 1.5 percent increase effective October 1, 2004 to private providers of specific state social services. These private providers contract for the provision of services with the Department of Mental Retardation, The Department of Children and Families, The Department of Mental Health and Addiction Services, The Department of Corrections and the Judicial Department as well as with some councils and boards.

### **Correction Programs**

In Fiscal Year 2005, funding was transferred out of the Department of Correction's Out of State Beds account to other programs within the Department to reflect the expiration of a contract for out-of-state incarceration. \$13.4 million was transferred to provide enhanced justice and prison recidivism reduction efforts and \$28 million was provided for additional personal services expenses within the Department of Corrections.

### **Municipal Aid**

The Fiscal Year 2005 budget provided for an expansion in various grants to towns. Funding for statutory grant programs expanded \$92.8 million from the prior year or by 4.3 percent. This brought the total funding to \$2.3 billion for Fiscal Year 2005. The largest single grant payment is for education equalization, which is intended to mitigate the disparity in education spending between wealthy and poor municipalities. The education equalization funding totaled almost \$1.6 billion in Fiscal Year 2005.

## **BUDGETARY AND OTHER CONTROL SYSTEMS**

In November 1992, electors approved an amendment to the State Constitution providing that the amount of general budget expenditures authorized for any fiscal year shall not exceed the estimated amount of revenue for such fiscal year.

This amendment also provided a framework for placing a cap on budgeted appropriations. Annual budgeted appropriations are capped at a percentage increase that is based on either the five-year average annual growth in the state's personal income or inflation, whichever is higher. Debt service payments, certain statutory grants to distressed municipalities, and appropriations required by federal mandate or court order are excluded from the limits of the cap.

The spending cap can be lifted if the Governor declares the existence of extraordinary circumstances and the General Assembly by a three-fifths vote approves appropriations in excess of the cap. This has occurred in several fiscal years to allow direct appropriations of surplus to be substituted for debt financing, and other permit other spending initiatives from surplus funds.

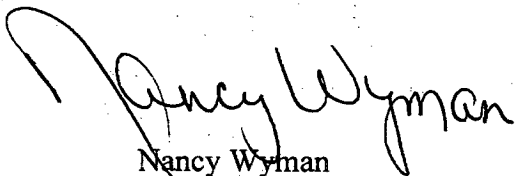

Budget control is maintained at the individual appropriation account level by agency as established in authorized appropriation bills. The allotment process exercises control over obligations or commitments. The Governor, through his budget office, allots funds for both budgeted and non-budgeted accounts and funds. The Governor is permitted to modify appropriations through the allotment process under certain circumstances and within percentage limitations specified by the General Assembly.

Elected officials, agency commissioners, directors of public benefit corporations and agency managers are responsible for establishing internal control structures. Good internal control systems ensure that: resource use is consistent with laws, regulations and policies; resources are safeguarded against waste, loss and misuse; and reliable data are obtained, maintained and fairly disclosed in reports. The Office of the State Comptroller has worked to improve the overall internal control environment in state government. This work has included improvements to the central state accounting system that advance internal control efforts.

## ACKNOWLEDGEMENTS

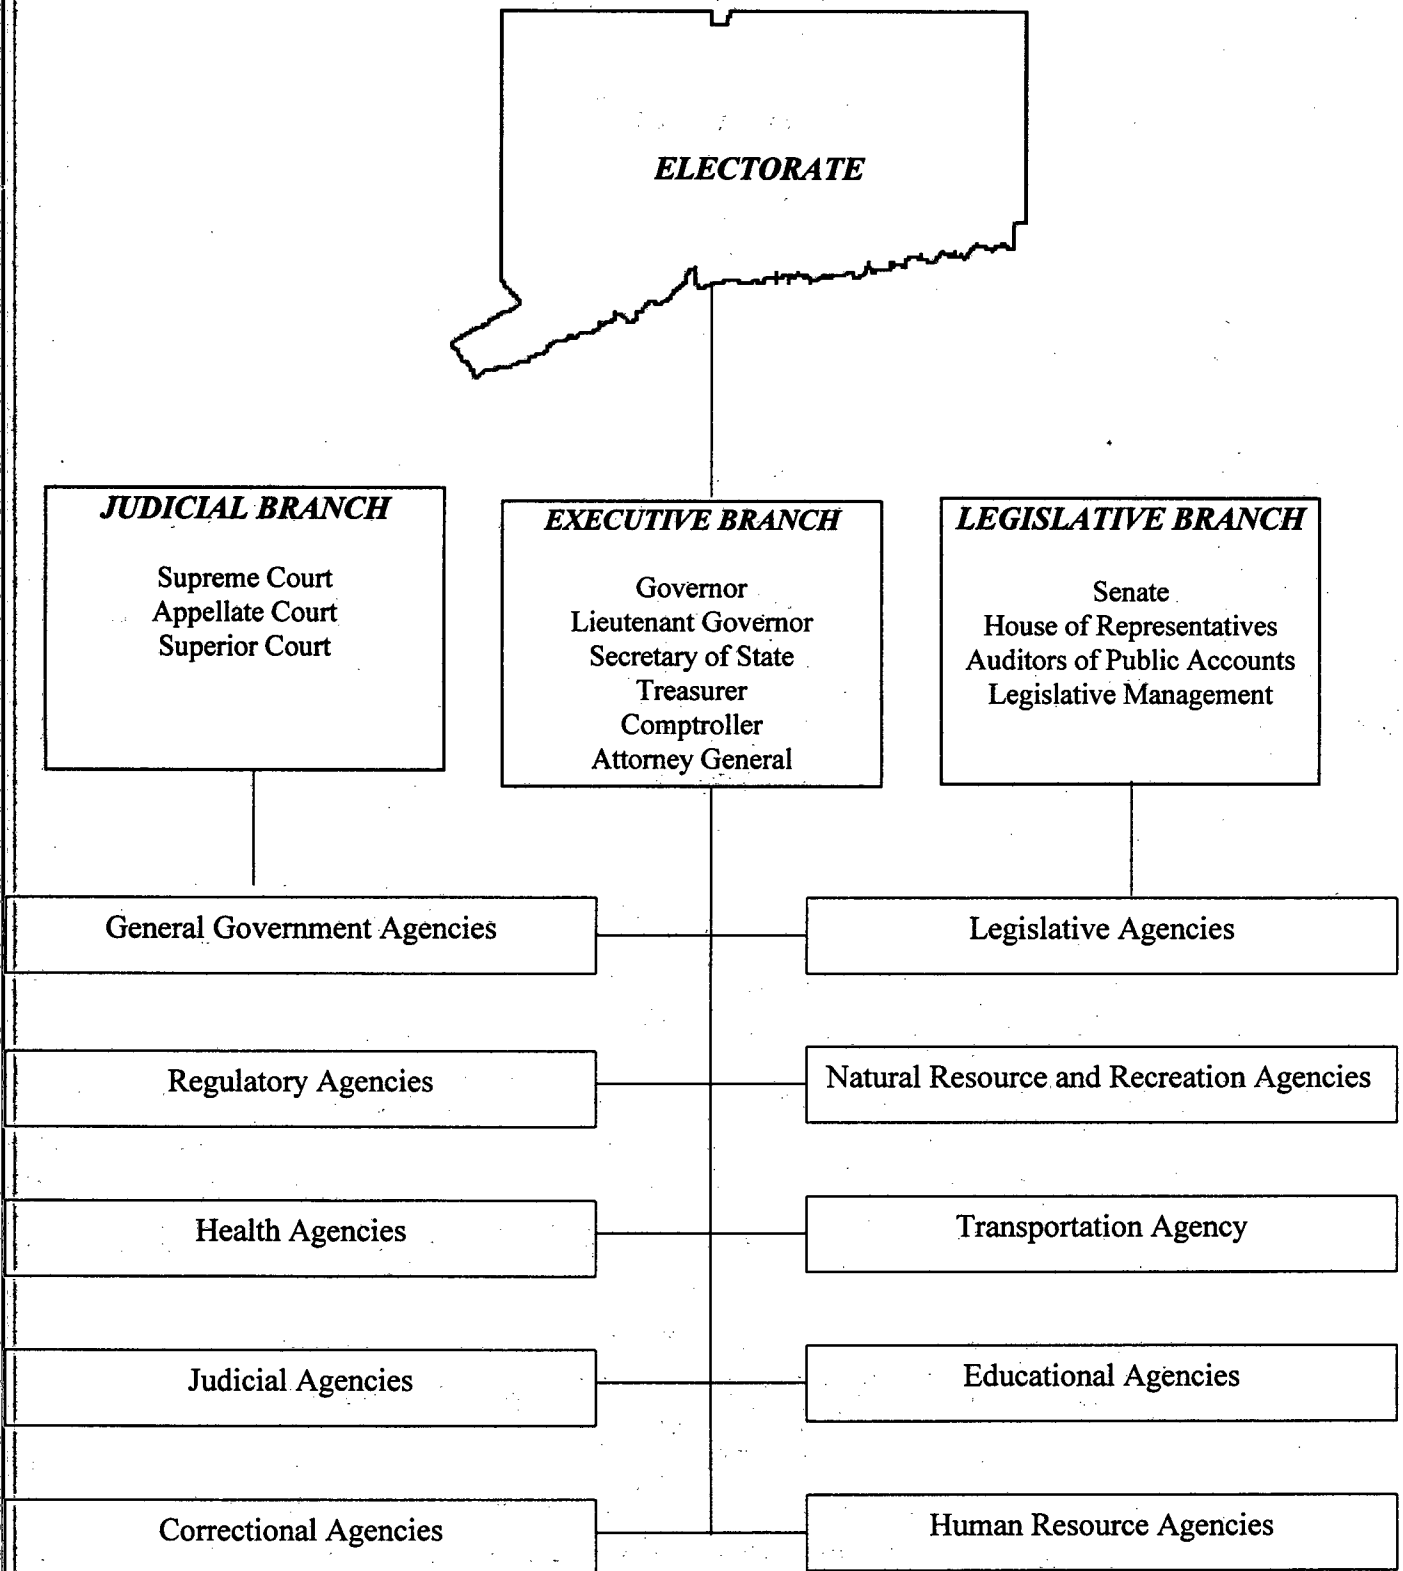

I wish to express my personal thanks to the many individuals in various agencies and reporting units whose cooperation and assistance have made this report possible. In addition, I would like to thank the staff of my Budget and Financial Analysis Division for their diligent work on this report.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Wyman". The signature is written in dark ink and is positioned above the printed name and title.

Nancy Wyman

STATE OF CONNECTICUT

AUDITORS OF PUBLIC ACCOUNTS

STATE CAPITOL

210 CAPITOL AVENUE

HARTFORD, CONNECTICUT 06106-1559

KEVIN P. JOHNSTON

ROBERT G. JAEKLE

**INDEPENDENT AUDITORS' REPORT**

Governor M. Jodi Rell  
Members of the General Assembly

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the State of Connecticut as of and for the year ended June 30, 2005, which collectively comprise the State's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Connecticut's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit:

Government-wide Financial Statements

- the financial statements of the Special Transportation Fund account within the Transportation Fund, the Transportation Special Tax Obligations account within the Debt Service Fund, and the Clean Energy Fund account within the Environmental Programs Fund, which in the aggregate, represent seven percent of the assets and six percent of the revenues of the Governmental Activities;
- the financial statements of the John Dempsey Hospital, University of Connecticut Foundation, Connecticut State University, and Connecticut Community Colleges accounts within the Higher Education Fund, Bradley International Airport, Bradley International Airport Parking Facility, Connecticut Lottery Corporation, Clean Water Fund and Drinking Water Fund, which in the aggregate, represent 58 percent of the assets and 53 percent of the revenues of the Business Type Activities;
- the financial statements of the discretely presented component units;

Fund Financial Statements

- the financial statements of the Special Transportation Fund account, which represents 95 percent of the assets and 97 percent of the revenues of the Transportation Fund;

- the financial statements of the Transportation Special Tax Obligations account, which represents 100 percent of the assets and 100 percent of the revenues of the Debt Service Fund;
- the financial statements of the Clean Energy Fund account, which represents 26 percent of the assets and 24 percent of the revenues of the Environmental Programs Fund;
- the financial statements of the John Dempsey Hospital, University of Connecticut Foundation, Connecticut State University, and Connecticut Community-Technical Colleges accounts within the Higher Education Fund; Bradley International Airport, Bradley International Airport Parking Facility, Connecticut Lottery Corporation, Clean Water Fund and Drinking Water Fund, which in the aggregate, represent 58 percent of the assets and 53 percent of the revenues of the Enterprise Funds;

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the aforementioned funds and accounts, is based on the reports of the other auditors. All of the aforementioned audits were conducted in accordance with auditing standards generally accepted in the United States of America. In addition, the audits of the Drinking Water Fund, Clean Water Fund, Bradley International Airport, Connecticut Lottery Corporation, Connecticut Resources Recovery Authority, Connecticut Health and Educational Facilities Authority, Connecticut Higher Education Supplemental Loan Authority, Connecticut Housing Finance Authority, and Connecticut Innovations Incorporated were conducted in accordance with standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, except that the audits of certain entities of the State, as described above, were not conducted in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based upon our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information for the State of Connecticut as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 4 of the financial statements, the State of Connecticut adopted the provisions of Governmental Accounting Standards Board ("GASB") Statement No. 40, *Deposit and Investment Risk Disclosures*, during the fiscal year ended June 30, 2005. This standard requires additional disclosures relating to risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk that have the potential to result in losses.

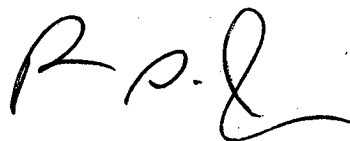

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2006, on our consideration of the State of Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis information on pages 17 through 27 and budgetary comparison information on pages 40 and 41, are not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Connecticut's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Kevin P. Johnston  
Auditor of Public Accounts

Robert G. Jaekle  
Auditor of Public Accounts

September 27 2006  
State Capitol  
Hartford, Connecticut

## MANAGEMENT'S DISCUSSION AND ANALYSIS (MDA)

The following discussion and analysis is supplementary information required by the Governmental Accounting Standards Board (GASB), and is intended to provide an easily readable explanation of the information provided in the attached basic financial statements. It is by necessity highly summarized, and in order to gain a thorough understanding of the State's financial position, the financial statements and footnotes should be viewed in their entirety.

### **FINANCIAL HIGHLIGHTS**

#### **Government-wide:**

As of June 30, 2005, the State had a total net asset deficit of \$1.4 billion, a deterioration in net assets of \$94 million occurring this fiscal year. This deterioration resulted from an increase of \$145 million in the net assets of business-type activities which was offset by a decrease of \$239 million in the net assets of governmental activities.

During the year, revenues of governmental activities exceeded expenses by \$604 million. However, this excess was offset by transfers and special items of \$843 million, resulting in a decrease of net asset of \$239 million.

For business-type activities, expenses exceeded revenues by \$354 million. However, this deficiency was offset by transfers of \$499 million, resulting in an increase in net assets of \$145 million.

#### **Fund Level:**

The governmental funds had a total fund balance of \$2.5 billion at year end. Of this amount, \$2.7 billion was reserved for various purposes, resulting in a total unreserved fund balance deficit of \$0.2 billion. The portion of the total unreserved fund balance deficit that pertains to the General Fund was a \$1.0 billion deficit. The General Fund had an actual budget surplus of \$380 million this year.

The Enterprise Funds had total net assets of \$4.0 billion, substantially all of which was invested in capital assets or restricted for various purposes.

#### **Debt Issued and Outstanding:**

Total long-term debt was \$17.9 billion for governmental activities, of which \$13.2 billion was bonded debt and \$0.2 billion was economic recovery notes.

Total long-term debt was \$2.2 billion for business-type activities, of which \$1.6 billion was bonded debt.

### **OVERVIEW OF THE FINANCIAL STATEMENT PRESENTATION**

There are three major parts to the basic financial statements: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### **GOVERNMENT-WIDE STATEMENTS (Reporting the State as a Whole)**

Governments have traditionally focused their reporting on groupings of funds rather than on the government taken as a whole. The GASB 34 financial reporting model, upon which this report is based, retains this traditional focus on funds and adds an additional focus on the overall government's financial position and operations.

The Statement of Net Assets and the Statement of Activities are two financial statements that report information about the State as a whole and its activities. These statements help to demonstrate how the State's financial position as a whole changed due to the year's operating activities. These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting.

The Statement of Net Assets presents all of the State's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets measure whether the State's financial position is improving or not.

The Statement of Activities presents information showing how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that will result in future fiscal year cash flows (e.g., earned but unused vacation time).

Both statements report three activities:

- *Governmental Activities* - Most of the State's basic services are reported under this category. Taxes and intergovernmental revenues generally fund these services. The legislature, the judiciary, and the general operations of the executive departments fall within the governmental activities.
- *Business-type Activities* - These activities are primarily funded by charges to external parties for the cost of goods and services provided. These activities are generally reported in Enterprise Funds in the fund level statements. The operations of Bradley International Airport, the Connecticut Lottery Corporation and Employment Security, are examples of business-type activities.
- *Discretely Presented Component Units* - Component units are legally separate organizations for which the State is financially accountable. More information on discretely presented component units can be found in Note 1 of the Notes to Financial Statement section.

Financial reporting for governmental activities traditionally has focused on changes in current spendable resources rather than on changes in total resources. This traditional focus has been retained for purposes of fund reporting. However, as governmental activities are included with other activities in the government-wide financial statement format, the focus for these activities shifts to changes in total resources. In other words, all activities reported in government-wide financial statements are reported in a manner similar to private-sector accounting. To increase the readers understanding, a summary reconciliation of the difference between the governmental fund financial statements and the government-wide financial statements is provided as part of the basic financial statements.

## **FUND LEVEL STATEMENTS**

Fund financial statements focus on individual parts of the State's operations in more detail than the government-wide statements. Funds are accounting devices that governments use to keep track of specific sources of funding and spending for particular purposes. The State is required to report four categories of fund statements - governmental, proprietary, and fiduciary funds, to the extent that State's activities meet the criteria for using these funds, and "combining statements" for its component units. Under the GASB 34 financial reporting model, as presented here, governments focus on major individual funds rather than on fund types (with aggregated information presented for the total of all non-major funds).

### **Major Governmental Fund Financial Statements:**

Governmental fund reporting focuses primarily on the sources, uses, and balances of current financial resources and often has a budgetary orientation. The State's major government funds include the General Fund, the Transportation Fund and the Debt Service Fund.

General Fund. The General Fund functions as the State's chief operating fund. All of the State's activities are reported in the General Fund unless there is a compelling reason to report them elsewhere.

Transportation Fund. The Transportation Fund is a special revenue fund that accounts for motor fuel taxes, vehicle registration and driver license fees, and other revenue collected for payment of debt service requirements and budgeted expenditures of the Department of Transportation and the Department of Motor Vehicles. The Department of Transportation is responsible for all aspects of the planning, development, maintenance and improvement of the State's transportation system.

Debt Service Fund. The Debt Service Fund is a governmental fund, which accounts for the accumulation of resources for, and the payment of, Special Tax obligation principal and interest.

Budgetary reporting. The State adopts a biannual budget for the General fund, the Transportation fund, and other Special Revenue funds. A budgetary comparison statement, using original and final budgets, is presented for the General and Transportation funds to demonstrate compliance with the current fiscal year budgets.

### **Major Proprietary Fund Financial Statements:**

Proprietary funds (enterprise and internal service) are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting where all assets and liabilities are reported on the balance sheet. Revenues are recorded when earned and expenses are recorded when incurred. In accordance with the requirements of the GASB 34 reporting model utilized in preparation of this report:

- Proprietary fund reporting distinguish current assets and liabilities from non-current assets and liabilities.
- Three classifications are used to classify equity for proprietary funds. These three classifications are 1) "invested in capital assets net of related debt," 2) "restricted" (distinguishing between major categories of restrictions) and 3) "unrestricted."

Enterprise funds report activities that provide goods or services to the general public. An example is the Connecticut Lottery. Internal service funds report activities that provide supplies and services to the State's other programs and activities. An example is the State's motor fleet operations. Internal service funds are reported as governmental activities on the government-wide statements

### **Fiduciary Fund Financial Statements:**

The fiduciary fund category includes pension (and other employee benefit) trust funds, an investment trust fund, a private-purpose trust fund, and agency funds. These fund types are used to report resources held and administered by the State when it is acting in a fiduciary capacity for individuals, private organizations or other governments.

Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the State's operations and programs. The accounting used for fiduciary funds is much like that for proprietary funds.

**Component Unit Combining Statements:**

The same GASB 34 reporting rules regarding the determination of major funds are applied to the State's component units. The Component units of the State of Connecticut are:

Connecticut Housing Finance Authority. Classified as a major component unit, CHFA was created for the purpose of increasing the housing supply and encouraging and assisting in the purchase, development and construction of housing for low and moderate income families.

Connecticut Health and Educational Facilities Authority. Classified as a major component unit, CHEFA was created to provide resources for financing major projects for health and educational institutions.

Connecticut Development Authority. CDA was created to stimulate commercial development in the State.

Connecticut Resources Recovery Authority. CRRRA was created to implement the State Solid Waste Management Plan.

Connecticut Higher Education Supplemental Loan Authority. CHESLA was created to provide resources for student loans.

Connecticut Innovations, Incorporated. CI was created to stimulate and promote technological innovation and application of new technology within the State.

Capital City Economic Development Authority. CCEDA was created to stimulate economic development in the city of Hartford.

University of Connecticut Foundation, Inc. The Foundation was created to solicit, receive, and administer gifts and financial resources from private sources for the benefit of the University of Connecticut.

**FINANCIAL SECTION CONTENTS OTHER THAN FINANCIAL STATEMENTS**

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

Required Supplementary Information. The RSI provides additional information regarding the State's progress on funding its obligation to provide pension benefits to its employees.

Combining Financial Statements. Combining statements for non-major funds are not required to be presented or audited under generally accepted accounting principals. Nevertheless, these statements are presented as other supplementary information in this report.

**FINANCIAL ANALYSIS OF THE GOVERNMENT AS A WHOLE****NET ASSETS**

The following condensed financial information was derived from the government-wide Statement of Net Assets and reflects the financial position of the State at the end of the fiscal year 2005, compared to the prior year.

**State Of Connecticut's Net Assets**  
**(Expressed in Millions)**

\* Restated for comparative purposes. See Note 21.

The State had a total net asset deficit of \$1.4 billion at year end, a deterioration in net assets of \$94 million occurring in this fiscal year. This deterioration resulted from an increase of \$145 million in the net assets of business-type activities which was offset by a decrease of \$239 million in the net assets of governmental activities.

Governmental activities had a total net asset deficit of \$5.4 billion at year end, a deterioration in net assets of \$0.2 billion occurring in this fiscal year. Of this amount, \$4.6 billion was invested in capital assets (buildings, roads, bridges, etc.) or was restricted for various purposes, resulting in an unrestricted net asset deficit of \$10.0 billion. This deficit does not mean that the State will not be able to pay its bills next year. Rather, it is the result of having long-term obligations that are greater than currently available resources. Specifically, the State had the following outstanding long-term obligations which contributed to the deficit: a) general obligation bonds in the amount of \$3.4 billion which were issued to finance various grant programs of the State, such as school construction and other municipal aid programs; and b) other long-term obligations in the amount of \$4.4 billion which the State has partially funded (net pension obligation) or not funded (compensated absences obligation).

Although the net assets of the business-type activities increased by \$0.1 billion, these resources cannot be used to make up for the net asset deficit in governmental activities. The State can only use these net assets to finance the ongoing operations of its Enterprise funds, such as the University of Connecticut, Bradley International Airport, Employment Security, etc.

## CHANGE IN NET ASSETS

The following condensed financial information was derived from the government-wide Statement of Activities and reflects the nature of the State's change in net assets during the fiscal year 2005, compared to the prior year,

\* Restated for comparative purposes. See Note 21.

Special Items are significant transactions or other activity within management's control that are either unusual in nature or infrequent in occurrence. Extraordinary items are activities that are both unusual in nature and infrequent in occurrence.

Total revenues of the State increased by \$1.0 billion to \$20.2 billion. Virtually all of this increase was due to an increase in tax revenues. Total expenses increased by \$753 million to \$20.0 billion. This increase can be attributed mainly to an increase of \$731 million in governmental activities' expenditures. Although, total revenues exceeded total expenses by \$250 million, this excess was offset by transfers and special items of \$344 million, resulting in a decrease of total net assets of \$94 million.

### GOVERNMENTAL ACTIVITIES

The following charts depict the distribution of revenues and expenses for Fiscal Year 2005.

**Expenses and Program Revenues - Governmental Activities  
Fiscal Year 2005**

Total revenues for the governmental activities increased by \$981 million to \$16.9 billion. This increase was due mainly to an increase in tax revenue, reflecting a growing economy. Total expenses increased by \$731 million to \$16.3 billion. This increase can be attributed mainly to increases in general government, health and hospital, and education expenses of \$539 million. Even though total revenues exceeded total expenses by \$604 million, this excess was offset by transfers and special items of \$843 million, resulting in a reduction of net assets of \$239 million. Of note is a transfer of a state building to a component unit for \$242 million. If this transfer had not occurred, the deterioration in net assets for the year would have not occurred.

As noted above, total revenues increased by 6% during the fiscal year because of a stronger economy. Specifically, the State added 21,700 new jobs during the fiscal year. In contrast, the State only added 6,800 new jobs in the previous fiscal year. In addition, corporate profits rebounded in the second and third quarters of the fiscal year after a disappointing start to the year. The Gross Domestic Product showed steady growth in excess of 3% during the fiscal year, and retail sales were up 9.6% for the year. During most of the fiscal year, the unemployment rate remained below 5%; however, in the final quarter of the fiscal year, it grew to just over 5%. The real estate market remained strong in the State for most of the fiscal year.

Total revenues and expenses of business-type activities were virtually unchanged between fiscal years 2005 and 2004. Although, total expenses exceeded total revenues by \$354 million, this deficiency was offset by transfers of \$499 million, resulting in an increase in net assets of \$145 million.

### **FINANCIAL ANALYSIS OF THE STATE'S FUNDS**

The State completed fiscal year 2005 with a balance of \$2.5 billion in its governmental funds. However, the General fund reported a deficit of \$1.0 billion in unreserved fund balance. Although governmental fund expenditures exceeded fund revenues by \$172 million, this deficiency was offset by other financing

activities and special items of \$681 million, resulting in an increase in fund balance of \$509 million in governmental funds in fiscal year 2005.

### **General Fund**

The General fund is the chief operating fund of the state. At the end of fiscal year 2005, the General fund had a fund balance of \$0.4 billion. Of this amount, \$1.4 billion was reserved for various purposes, leaving a deficit of \$1.0 billion in unreserved fund balance. Although, total fund revenues exceeded total fund expenditures by \$1,033 million, this excess was reduced by other financing uses and special item of \$453 million, resulting in an increase in fund balance of \$580 million for the fiscal year .

### **Budgetary Highlights-General Fund**

Early in the fiscal year, the General fund surplus was estimated to be \$84 million. By the end of the fiscal year, fund revenues had greatly increased because of a strong economy, causing the surplus estimate to grow to \$674 million. However, most of the estimated surplus was eventually appropriated by the State legislature for various expenditure programs, resulting in a final estimated surplus of \$173 million.

Although actual fund revenues exceeded expenditures by \$730 million, this excess was reduced by other financing activities of \$350 million, resulting in an actual surplus of \$380 million. A portion of the 2004 surplus in the amount of \$150 million was appropriated during the current fiscal year for various expenditure programs. This amount was reported in the budgetary statement as other financing source.

During the year, actual revenues exceeded original budget revenues by \$903 million. A tax revenue variance of \$857 million accounts for much of the total variance. Some of the tax revenues that exceeded original estimates were: personal income, \$440 million; corporations, \$177 million; and inheritance and estate, \$ 88 million.

During the year, final appropriations exceeded original appropriations by \$662 million. Some of the major adjustments to initial appropriations that occurred during the year were: \$138 million to pre-pay debt service on economic recovery notes; \$100 million for deposit to the Teachers' Retirement Fund; and \$85 million for educational aid to cities and towns. Because of these additional appropriations, the Constitutional spending cap was exceeded by \$371 million.

### **Other Funds**

The Debt Service fund had a fund balance of \$678 million at year end, all of which was reserved.

The Transportation fund had a fund balance of \$173 million at year end, most of which was unreserved.

## **CAPITAL ASSETS AND DEBT ADMINISTRATION**

### **Capital Assets.**

The State of Connecticut's investment in capital assets for its governmental and business-type activities as of June 30, 2005 amounted to \$12.7 billion (net of accumulated depreciation). In fiscal year 2005, capital assets for governmental activities declined mainly as a result of the transfer of a state building to a component unit while capital assets for business-type activities increased 8.0%. Depreciation charges for the fiscal year totaled \$0.8 billion.

**State of Connecticut's Capital Assets  
(Net of Depreciation, in Millions)**

	Governmental Activities		Business-type Activities		Total Primary Government	
	2005	2004 *	2005	2004 *	2005	2004 *
Land	\$ 1,264	\$ 1,224	\$ 64	\$ 52	\$ 1,328	\$ 1,276

\* Restated for comparative purposes. See Note 21.

Additional information on the State's capital assets can be found in Note 10 of this report.

**Long-term Debt.**

**Bonded Debt**

The State, pursuant to various public and special acts, has authorized a variety of types of debt which fall into the following categories: direct general obligation debt, which is payable from the State's general fund; special tax obligation debt, which is payable from the debt service fund; and revenue debt, which is payable from specific revenues of enterprise funds.

**State of Connecticut's Bonded Debt (in millions)**

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2005	2004	2005	2004	2005	2004
General Obligation Bonds	\$ 9,905	\$ 9,607	\$ -	\$ -	\$ 9,905	\$ 9,607
Transportation Related Bonds	3,114	3,154	-	-	3,114	3,154
Revenue Bonds			1,620	1,714	1,620	1,714
Premiums and deferred amounts	229	181	34	36	263	217
Total	<u>\$ 13,248</u>	<u>\$ 12,942</u>	<u>\$ 1,654</u>	<u>\$ 1,750</u>	<u>\$ 14,902</u>	<u>\$ 14,692</u>

In fiscal year 2005 the State increased outstanding bonds by \$210 million. Bonds of governmental activities increased by \$306 million while bonds of business-type activities decreased by \$96 million. The State's General Obligation bonds are rated Aa3, AA and AA by Moodys, Standard and Poors and Fitch respectively. Special Tax Obligation bonds are rated A1, AA-, AA- by Moodys, Standard and Poors and Fitch respectively.

Section 3-21 of the Connecticut General Statutes provides that the total amount of bonds, notes or other evidences of indebtedness payable from General fund tax receipts authorized by the General Assembly but have not been issued and the total amount of such indebtedness which has been issued and remains outstanding shall not exceed 1.6 times the total estimated General fund tax receipts of the State for the current fiscal year. In computing the indebtedness at any time, revenue anticipation notes, refunded indebtedness, bond anticipation notes, tax increment financing, budget deficit bonding, revenue bonding, balances in debt retirement funds and other indebtedness pursuant to certain provisions of the General Statutes shall be excluded from the calculation. As of December, 2005, the State had a debt incurring margin of \$3.8 billion.

## Other Long-Term Debt

### State of Connecticut's Other Long - Term Debt (in Millions)

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2005	2004	2005	2004	2005	2004
Net Pension Obligation	\$ 3,636	\$ 3,440	\$ -	\$ -	\$ 3,636	\$ 3,440
Compensated Absences	415	371	102	104	517	475
Workers Compensation	299	277	-	-	299	277
Lottery Prizes	-	-	337	385	337	385
Other	88	72	166	97	254	169
Total	\$ 4,438	\$ 4,160	\$ 605	\$ 586	\$ 5,043	\$ 4,746

The State's other long-term obligations increased by \$297 million during the year. An increase of \$196 million in the net pension obligation of governmental activities accounted for most of the change.

Additional information on the State's long-term debt can be found in Note 16 of this report.

### CONTACTING THE STATE'S OFFICES OF FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the State's finances and to demonstrate the State's accountability for the money it receives. If you have any questions about this report, please contact the State Comptroller's Office at 1-860-702-3350.

## ***Governmental Fund Financial Statements***

### ***Major Funds***

#### ***General Fund:***

This fund is the State's general operating fund. It accounts for the financial resources and transactions not accounted for in other funds.

#### ***Debt Service Fund:***

This fund is used to account for the accumulation of resources for and the payment of, principal and interest on special tax obligation bonds of the Transportation fund.

#### ***Transportation Fund:***

to account for motor vehicle taxes, receipts and transportation related federal revenues collected for the purposes of payment of debt service requirements and budgeted appropriations made to the Department of Transportation. The Department of Transportation is responsible for all aspects of the planning, development, maintenance, and improvement of transportation in the state.

#### ***Nonmajor Funds:***

Nonmajor governmental funds are presented, by fund type beginning on page 90.

# Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Assets

June 30, 2005

(Expressed in Thousands)

Total Fund Balance - Governmental Funds \$ 2,474,604

Net assets reported for governmental activities in the Statement of Net Assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. These assets consist of:

Buildings	2,791,957	
Equipment	1,141,958	
Infrastructure	12,004,178	
Other Capital Assets	1,059,044	
Accumulated Depreciation	(7,396,277)	9,600,860

Debt issue costs are recorded as expenditures in the funds. However, these costs are deferred (reported as other assets) and amortized over the life of the bonds in the Statement of Net Assets. 50,373

Some of the state's revenues will be collected after year-end but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds. 477,526

Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Assets. (12,792)

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds (Note 16).

Net Pension Obligation	(3,636,304)	
Worker's Compensation	(298,556)	
Capital Leases	(76,955)	
Compensated Absences	(409,366)	
Claims and Judgments	(6,609)	(4,427,790)

Long-term bonded debt is not due and payable in the current period and therefore is not reported in the funds. Unamortized premiums, loss on refundings, and interest payable are not reported in the funds. However, these amounts are included in the Statement of Net Assets. This is the net effect of these balances on the statement (Note 16).

Economic Recovery Note	(209,560)	
Bonds Payable	(13,019,117)	
Unamortized Premiums	(502,703)	
Less: Deferred Loss on Refundings	273,634	
Accrued Interest Payable	(95,658)	(13,553,404)

Net Assets of Governmental Activities \$ (5,390,623)

*The accompanying notes are an integral part of the financial statements.*

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

June 30, 2005

(Expressed in Thousands)

Net Change in Fund Balances - Total Governmental Funds		\$ 509,133
Amounts reported for governmental activities in the Statement of Activities are different because:		
Bond proceeds provide current financial resources to governmental funds. However, issuing debt increases long term-liabilities in the Statement of Net Assets. Bond proceeds were received this year from:		
Bonds Issued	(1,278,110)	
Refunding Bonds Issued	(447,013)	
Premium on Bonds Issued	<u>(93,014)</u>	(1,818,137)
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Long-term debt repayments this year consisted of:		
Principal Retirement	1,051,308	
Payments to Refunded Bond Escrow Agent (\$710 reported in debt service)	485,089	
Capital Lease Payments	<u>4,432</u>	1,540,829
Some capital assets acquired this year were financed with capital leases. The amount financed by leases is reported in the governmental funds as a source of financing, but lease obligations are reported as long-term liabilities on the Statement of Net Assets.		(27,628)
Capital outlays are reported as expenditures in the governmental funds. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts and other reductions were as follows:		
Capital Outlays	620,771	
Depreciation Expense	(634,323)	
Transfer and Retirements	<u>(249,759)</u>	(263,311)
Inventories are reported as expenditures in the governmental funds when purchased. However, in the Statement of Activities the cost of these assets is recognized when those assets are consumed. This is the amount by which consumption exceeded purchases of inventories.		(4,311)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:		
Increase in Accrued Interest	(11,881)	
Decrease in Interest Accreted on Capital Appreciation Debt	27,781	
Amortization of Bond Premium	38,179	
Amortization of Loss on Debt Refundings	(28,192)	
Increase in Compensated Absences Liability	(43,805)	
Increase in Workers Compensation Liability	(21,875)	
Decrease in Claims and Judgments Liability	6,574	
Increase in Net Pension Obligation	<u>(195,950)</u>	(229,169)
Because some revenues will not be collected for several months after the state's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Deferred revenues increased by this amount this year.		50,785
Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The net revenue (expense) of internal service funds is reported with the governmental activities.		(3,660)
Debt issue costs are recorded as expenditures in the governmental funds. However, these costs are amortized over the life of the bonds in the Statement of Activities. In the current year, these amounts are:		
Debt Issue Costs Payments	9,791	
Amortization of Debt Issue Costs	<u>(3,940)</u>	5,851
Change in Net Assets of Governmental Activities		<u>\$ (239,618)</u>

The accompanying notes are an integral part of the financial statements.

## ***Proprietary Fund Financial Statements***

### ***Major Funds***

#### ***University of Connecticut and Health Center:***

This fund is used to account for the operations of the University of Connecticut a comprehensive institution of higher education, which includes the University of Connecticut Health Center and John Dempsey Hospital.

#### ***State Universities:***

This fund is used to account for the operations of the State University System which consist of four universities: Central, Eastern, Southern, and Western.

#### ***Bradley International Airport:***

The airport is owned by the State of Connecticut and is operated by the Bureau of Aeronautics of the State of Connecticut, Department of Transportation. In 1982, the State issued the Airport, 1982 series, Revenue Bonds in the aggregate principal amount of \$100,000,000. The bonds were refunded in 1992 with the issuance of \$94,065,000 in refunding bonds. The refunding bonds are secured by and payable solely from the gross operating revenues generated by the State from the operations of the Airport and other receipts, funds or monies pledged in the Indenture.

#### ***The Connecticut Lottery Corporation:***

The Connecticut Lottery Corporation, a public instrumentality and political subdivision of the State of Connecticut was created on July 1, 1996 for the purpose of generating revenues for the State of Connecticut's General Fund through the operation of a lottery.

#### ***Employment Security:***

to account for the collection of unemployment insurance premiums from employers and the payment of unemployment benefits to eligible claimants.

#### ***Clean Water:***

to account for resources used to provide loans to municipalities to finance waste water treatment projects.

#### ***Nonmajor Funds:***

Nonmajor proprietary funds are presented, by fund type beginning on page 112.

# Notes to the Financial Statements

June 30, 2005

## Note 1 Summary of Significant Accounting Policies

### a. Basis of Presentation

The accompanying financial statements of the State of Connecticut have been prepared in conformity with generally accepted accounting principles as prescribed in pronouncements of the Governmental Accounting Standards Board, except for the financial statements of the University of Connecticut Foundation, Incorporated (a component unit). Those statements are prepared according to generally accepted accounting principles as prescribed in pronouncements of the Financial Accounting Standards Board.

### b. Reporting Entity

For financial reporting purposes, the State's reporting entity includes the "primary government" and its "component units." The primary government includes all funds, agencies, departments, bureaus, commissions, and component units that are considered an integral part of the State's legal entity. Component units are legally separate organizations for which the State is financially accountable. Financial accountability exists if (1) the State appoints a voting majority of the organization's governing board, and (2) the State is able to impose its will on the organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. The State also includes a nongovernmental nonprofit corporation as a component unit because it would be misleading to exclude the corporation from the reporting entity. Component units are reported in the financial statements in a separate column (discrete presentation), or as part of the primary government (blending presentation).

### Discretely Presented Component Units

Discretely presented component units include legally separate organizations for which the State appoints a voting majority of the organization's governing board and is contingently liable for the organization's debt or provides funding for the organization's programs (applies only to the Connecticut Innovations, Incorporated and the Capital City Economic Development Authority). In addition, a nongovernmental nonprofit corporation is included as a discretely presented component unit because of the nature and significance of its relationship with the State are such that it would be misleading to exclude the corporation from the State's reporting entity. The following organizations are reported in separate columns and rows in the government-wide financial statements to emphasize that they are legally separate from the primary government:

#### Connecticut Development Authority

The Authority is a public instrumentality and political subdivision of the State. It was created to stimulate industrial and commercial development within the State through its Self-Sustaining Bond, Umbrella, and Insurance programs as well as other economic development programs.

#### Connecticut Housing Finance Authority

The Authority is a public instrumentality and political subdivision of the State. It was created for the purpose of increasing the housing supply and encouraging and assisting in the purchase, development, and construction of housing for low and moderate-income families and persons throughout the State. The Authority's fiscal year is for the period ending on December 31, 2004.

#### Connecticut Resources Recovery Authority

The Authority is a public instrumentality and political subdivision of the State. It is responsible for implementing the State Solid Waste Management Plan by determining the location of and constructing solid waste management projects; owning, operating, and maintaining waste management projects; or making provisions for operation and maintenance by contracting with private industry.

#### Connecticut Higher Education Supplemental Loan Authority

The Authority is a public instrumentality and political subdivision of the State. It was created to assist students, their parents, and institutions of higher education to finance the cost of higher education through its Bond funds.

#### Connecticut Health and Educational Facilities Authority

The Authority is a public instrumentality and political subdivision of the State. The purpose of the Authority is to assist certain health care institutions, institutions of higher education, and qualified for-profit and not-for-profit institutions in the financing and refinancing of projects to be undertaken in relation to programs for these institutions.

#### Connecticut Innovations, Incorporated

The Authority is a public instrumentality and political subdivision of the State. It was established to stimulate and promote technological innovation and application of technology within Connecticut and encourage the development of new products, innovations, and inventions or markets in Connecticut by providing financial and technical assistance.

#### Capital City Economic Development Authority

The Authority is a public instrumentality and political subdivision of the State. It was established in 1998 to stimulate new investment in Connecticut; to attract and service large conventions, tradeshow, exhibitions, conferences, and local consumer shows, exhibitions and events; to encourage the diversification of the state economy; to strengthen Hartford's role as the region's major business and industry employment center and seat of government; to encourage residential housing development in downtown Hartford; and to construct, operate, maintain and market a convention center project in Hartford.

#### University of Connecticut Foundation, Incorporated

The University of Connecticut Foundation, Incorporated is a nongovernmental nonprofit corporation created exclusively to solicit, receive, and administer gifts and financial resources from private sources for the benefit of all campuses and programs of the University of Connecticut, a major Enterprise fund.

Financial statements for the major component units are included in the accompanying financial statements after the fund

financial statements. Audited financial statements issued separately by each component unit can be obtained from their respective administrative offices.

### ***Blended Component Units***

#### ***Connecticut Lottery Corporation***

The Connecticut Lottery Corporation is a legally separate organization for which the State appoints a voting majority of the Corporation's governing board and which provides a significant amount of revenues to the State. The corporation is reported as part of the primary government's business-type activities in the government-wide financial statements and as a major Enterprise fund in the fund financial statements.

### **c. Government-wide and Fund Financial Statements**

#### ***Government-wide Financial Statements***

The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the primary government and its component units. These statements distinguish between the governmental and business-type activities of the primary government by using separate columns and rows. Governmental activities are generally financed through taxes and intergovernmental revenues. Business-type activities are financed in whole or in part by fees charged to external parties. For the most part, the effect of interfund activity has been removed from these statements.

The Statement of Net Assets presents the reporting entity's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

1. Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of bonds issued to buy, construct, or improve those assets.
2. Restricted net assets result when constraints placed on net assets use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
3. Unrestricted net assets consist of net assets that do not meet the definition of the two preceding categories.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses are not allocated to the various functions or segments. Program revenues include a) fees, fines, and charges paid by the recipients of goods or services offered by the functions or segments and b) grants and contributions that are restricted to meeting the operational or capital needs of a particular function or segment. Revenues that are not classified as program revenues, including all taxes, are reported as general revenues.

### ***Fund Financial Statements***

The fund financial statements provide information about the State's funds, including its fiduciary funds and blended component units. Separate statements for each fund category (governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The State reports the following major governmental funds:

***General Fund*** - This is the State's primary operating fund. It is used to account for all financial resources which are not required to be accounted in other funds and which are spent for those services normally provided by the State (e.g., health, social assistance, education, etc.).

***Debt Service*** - This fund is used to account for the resources accumulated and payments made for principal and interest on special tax obligation bonds of the Transportation fund.

***Transportation*** - This fund is used to account for motor fuel taxes, vehicle registration and driver license fees, and other revenue collected for the purpose of payment of transportation related bonds and budgeted appropriations of the Department of Transportation. The Department of Transportation is responsible for all aspects of the planning, development, maintenance, and improvement of transportation in the State.

The State reports the following major enterprise funds:

***University of Connecticut & Health Center*** - This fund is used to account for the operations of the University of Connecticut a comprehensive institution of higher education, which includes the University of Connecticut Health Center and John Dempsey Hospital.

***State Universities*** - This fund is used to account for the operations of the State University System which consists of four universities: Central, Eastern, Southern, and Western.

***Bradley International Airport*** - This fund is used to account for the financial activities of the Bradley International Airport, which is owned and operated by the State.

***Connecticut Lottery Corporation*** - This fund is used to account for the financial activities of the State's lottery. The Corporation was created in 1996 for the purpose of generating revenues for the State's General Fund.

***Employment Security*** - This fund is used to account for unemployment insurance premiums from employers and the payment of unemployment benefits to eligible claimants.

***Clean Water*** - This fund is used to account for resources used to provide loans to municipalities to finance waste water treatment facilities.

In addition, the State reports the following fund types:

**Internal Service Funds** - These funds account for goods and services provided to other agencies of the State on a cost-reimbursement basis. These goods and services include prisoner-built office furnishings, information services support, telecommunications, printing, and other services.

**Pension (and Other Employee Benefits) Trust Funds** - These funds account for resources held in trust for the members and beneficiaries of the State's defined benefit pension plans and other employee benefits plans. These plans are discussed more fully in Notes 11 and 12.

**Investment Trust Fund** - This fund accounts for the external portion of the State's Short-Term Investment Fund, an investment pool managed by the State Treasurer.

**Private-Purpose Trust Fund** - This fund accounts for escheat securities held in trust for individuals by the State Treasurer.

**Agency Funds** - These funds account for deposits, investments, and other assets held by the State as an agent for inmates and patients of State institutions, insurance companies, municipalities, and private organizations.

**d. Measurement Focus and Basis of Accounting**  
**Government-wide, Proprietary, and Fiduciary Fund Financial Statements**

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred, regardless of when the related cash flows take place. Taxes and casino gaming payments are recognized as revenues in the period when the underlying exchange transaction has occurred. Grants and similar items are recognized as revenues in the period when all eligibility requirements imposed by the provider have been met.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the State's enterprise and internal service funds are charges to customers for sales and services, assessments, and intergovernmental revenues. Operating expenses for enterprise and internal service funds include salaries, wages, and administrative expenses, unemployment compensation, claims paid, and depreciation expense. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental

Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. This option is followed by the following component units of the State: the Connecticut Development Authority and the Connecticut Health and Educational Facilities Authority.

**Governmental Fund Financial Statements**

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The State considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after year-end. Sales and use taxes, personal income taxes, public service corporation taxes, special fuel taxes, federal grants, and casino gaming payments are considered to be susceptible to accrual. Licenses, permits, and fees are not considered to be susceptible to accrual and are recognized as revenues when the cash is collected. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general-long term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the State's policy to use unrestricted resources first, then restricted resources, as they are needed.

**e. Budgeting Process**

By statute, the Governor must submit the State budget to the General Assembly in February of every other year. Prior to June 30, the General Assembly enacts the budget through the passage of appropriation acts for the next two fiscal years and sets forth revenue estimates for the same period for the following funds: the General Fund, the Transportation Fund, the Mashantucket Pequot Fund, the Workers' Compensation Administration Fund, the Banking Fund, the Consumer Counsel and Public Utility Control Fund, the Insurance Fund, the Criminal Injuries Fund, the Soldiers, Sailors, and Marines Fund and the Regional Market Operations Fund. Under the State Constitution, the Governor has the power to veto any part of the itemized appropriations bill and to accept the remainder of the bill. However, the General Assembly may separately reconsider and repass the disapproved items by a two-thirds majority vote of both the Senate and the House.

Budgetary control is maintained at the individual appropriation account level by agency as established in authorized appropriation bills and is reported in the Annual Report of the State Comptroller. A separate document is necessary because the level of legal control is more detailed than reflected in the CAFR. Before an agency can utilize funds appropriated for a particular purpose, such funds must be allotted for the specific purpose by the Governor and encumbered by the Comptroller upon request by the agency. Such funds can then be expended by the Treasurer only upon a warrant, draft or order of the

Comptroller drawn at the request of the responsible agency. The allotment process maintains expenditure control over special revenue, enterprise, and internal service funds that are not budgeted as part of the annual appropriation act.

The Governor has the power under Connecticut statute to modify budgetary allotment requests for the administration, operation and maintenance of a budgeted agency. However, the modification cannot exceed 3 percent of the fund or 5 percent of the appropriation amount. Modifications beyond those limits, but not in excess of 5 percent of the total funds require the approval of the Finance Advisory Committee. The Finance Advisory Committee is comprised of the Governor, the Lieutenant Governor, the Treasurer, the Comptroller, two senate members, not of the same political party, and three house members, not more than two of the same political party. Additional reductions of appropriations of more than 5 percent of the total appropriated fund can be made only with the approval of the General Assembly.

All funds, except fiduciary funds, use encumbrance accounting. Under this method of accounting, purchase orders, contracts, and other commitments for the expenditures of the fund are recorded in order to reserve that portion of the applicable appropriation. All encumbrances lapse at year-end and, generally, all appropriations lapse at year-end except for certain continuing appropriations (continuing appropriations are defined as carry forwards of spending authority from one fiscal budget into a subsequent budget). The continuing appropriations include: appropriations continued for a one-month period after year-end which are part of a program that was not renewed the succeeding year; appropriations continued the entire succeeding year, as in the case of highway and other capital construction projects; and appropriations continued for specified amounts for certain special programs. Carry forward appropriations are reported as reservations of the fund balance in the financial statements.

The budget is prepared on a "modified cash" basis of accounting under which revenues are recognized when received, except for certain taxes which are recognized when earned. Tax revenues recognized when earned include the following: sales and use, personal income, corporation, public service corporations, petroleum companies, cigarettes, alcoholic beverages, gasoline, special motor fuel, and motor carrier road. Under the modified cash basis, expenditures are recognized when paid. A comparison of actual results of operations recorded on this basis and the adopted budget is presented in the financial statements for the General and Transportation funds. During the 2005 fiscal year, the original adopted budget was adjusted by the General Assembly and the Finance Advisory Committee.

#### **f. Assets and Liabilities**

##### ***Cash and Cash Equivalents (see Note 4)***

In addition to petty cash and bank accounts, this account includes cash equivalents – short-term, highly liquid investments with original maturities of three months or less when purchased. Cash equivalents include investments in the Short-Term Investment Fund ("STIF") and the Tax Exempt Proceeds Fund, Inc. ("TEPF"). TEPF is a short-term, tax-exempt money market fund reported under the Investment

Company Act of 1940. Investments in STIF and TEPF are reported at the fund's share price.

##### ***Investments (see Note 4)***

Investments include Equity in Combined Investment Funds and other investments. Equity in Combined Investment Funds is reported at fair value based on the funds' current share price. Other investments are reported at fair value, except for the following investments which are reported at cost or amortized cost:

- Nonparticipating interest-earning investment contracts.
- Money market investments that mature within one year or less at the date of their acquisition.
- Investments of the External Investment Pool fund (an Investment Trust fund).

The fair value of other investments is determined based on quoted market prices except for:

- The fair value of State bonds held by the Clean Water and Drinking Water funds (Enterprise funds) which is estimated using matrix pricing.
- The fair value of equity and debt securities held by the Connecticut Innovations, Incorporated, a component unit. The fair value of these investments is determined by the Valuation Committee of the Corporation, after giving consideration to pertinent information about the companies comprising the investments, including but not limited to recent sales prices of the issuer's securities, sales growth, progress toward business goals, and other operating data.

The State invests in derivatives. These investments are held by the Combined Investment Funds and are reported at fair value in each fund's statement of net assets.

##### ***Inventories***

Inventories are reported at cost. Cost is determined by the first-in first-out (FIFO) method. Inventories in the governmental funds consist of expendable supplies held for consumption whose cost was recorded as an expenditure at the time the individual inventory items were purchased. Reported inventories in these funds are offset by a fund balance reserve to indicate that they are unavailable for appropriation.

##### ***Capital Assets and Depreciation***

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, railways, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the State as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated fair market value at the date of donation.

Collections of historical documents, rare books and manuscripts, guns, paintings, and other items are not

capitalized. These collections are held by the State Library for public exhibition, education, or research; and are kept protected, cared for, and preserved indefinitely. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are also not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

<b>Assets</b>	<b>Years</b>
Buildings	40
Improvements Other than Buildings	10-20
Machinery and Equipment	5-30
Infrastructure	20-28

***Securities Lending Transactions (see Note 4)***

Assets, liabilities, income, and expenses arising from securities lending transactions of the Combined Investment Funds are allocated ratably to the participant funds based on their equity in the Combined Investment Funds.

***Deferred Revenues***

In the government-wide and fund financial statements, this liability represents resources that have been received, but not yet earned. In the fund financial statements, this liability also represents revenues considered measurable but not available during the current period.

***Long-term Obligations***

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and issuance costs are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. Other long-term obligations include compensated absences, workers' compensation claims, capital leases, claims and judgements, annuities payable, and the net pension obligation.

In the fund financial statements, governmental fund types recognize bond premiums and bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

***Capital Appreciation Bonds***

Capital appreciation (deep-discount) bonds issued by the State, unlike most bonds, which pay interest semi-annually, do not pay interest until the maturity of the bonds. An investor who purchases a capital appreciation bond at its discounted price and holds it until maturity will receive an amount which equals the initial price plus an amount which has accrued over the life of the bond on a semiannual compounding basis. The net value of the bonds is accreted (the discount reduced), based on this semiannual compounding, over the life of the bonds. This deep-discount debt is reported in the government-wide statement of net assets at its net or accreted value rather than at face value.

***Compensated Absences***

The liability for compensated absences reported in the government-wide and proprietary fund statements consist of unpaid, accumulated vacation and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Vacation and sick policy is as follows: Employees hired on or before June 30, 1977, and managers regardless of date hired can accumulate up to a maximum of 120 vacation days. Employees hired after that date can accumulate up to a maximum of 60 days. Upon termination or death, the employee is entitled to be paid for the full amount of vacation days owed. No limit is placed on the number of sick days that an employee can accumulate. However, the employee is entitled to payment for accumulated sick time only upon retirement, or after ten years of service upon death, for an amount equal to one-fourth of his/her accrued sick leave up to a maximum payment equivalent to sixty days.

Pursuant to Public Act No. 03-02 the General Assembly enacted an Early Retirement Incentive Program in order to mitigate the deficit of the General Fund. Under the provisions of this program any employee participating in the program shall be eligible for payment of accrued sick days and for the balance of unused vacation leave in accordance with the existing rules as stated above, with the exception of one modification. The modification provides that the balance of any compensated absences shall be paid in three equal installments beginning in fiscal year ending June 30, 2006. The State may, at its option, make the payment in one installment on or before July, 2005 if the amount of the payment is less than \$2,000.

***g. Fund Balance***

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

***h. Interest Rate Swap Agreements***

The State has entered into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements, no amounts are recorded in the financial statements (see Note 17).

**i. Interfund Activities**

In the fund financial statements, interfund activities are reported as follows:

**Interfund receivables/payables** - The current portion of interfund loans outstanding at the end of the fiscal year is reported as due from/to other funds; the noncurrent portion as advances to/from other funds. All other outstanding balances between funds are reported as due from/to other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

**Interfund services provided and used** - Sales and purchases of goods and services between funds for a price approximating their external exchange value. Interfund services provided and used are reported as revenues in seller funds and expenditures or expenses in purchaser funds. In the statement of activities, transactions between the primary government and its discretely presented component units are reported as revenues and expenses, unless they represent repayments of loans or similar activities.

**Interfund transfers** - Flows of assets without equivalent flows of assets in return and without a requirement for repayment. In governmental funds, transfers are reported as other financing uses in the funds making transfers and as other financing sources in the funds receiving transfers. In proprietary funds, transfers are reported after nonoperating revenues and expenses.

**Interfund reimbursements** - Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them. Reimbursements are not reported in the financial statements.

**j. Food Stamps**

Food stamps distributed to recipients during the year are recognized as both an expenditure and a revenue in the governmental fund financial statements.

**k. External Investment Pool**

Assets and liabilities of the Short-Term Investment Fund are allocated ratably to the External Investment Pool Fund based on its investment in the Short-Term Investment Fund (see Note 4). Pool income is determined based on distributions made to the pool's participants.

**l. Use of Estimates**

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

**Note 2 Budgetary vs. GAAP Basis of Accounting**

The following is a reconciliation of the net change in fund balances as reported in the budgetary and GAAP basis of accounting statements of revenues, expenditures, and changes in fund balances (amounts in thousands):

	General Fund	Transportation Fund
Net change in fund balances (budgetary basis)	\$ 379,714	\$ 3,796
Adjustments:		
Increases (decreases) in revenue accruals:		
Receivables and Other Assets	(131,749)	(5,763)
(Increases) decreases in expenditure accruals:		
Accounts Payable and Other Liabilities	(60,332)	(3,950)
Salaries and Fringe Benefits Payable	61,044	3,403
Increase in Continuing Appropriations	481,560	3,251
Transfer of 2044 Surplus	(150,300)	-
Fund Reclassification-Bus Operations	-	6,519
Net change in fund balances (GAAP basis)	\$ 579,937	\$ 7,256

The major differences between the budgetary (legal) and the GAAP (generally accepted accounting principles) basis of accounting as reconciled above are as follows:

1. Revenues are recorded when received in cash except for certain year-end accruals (budgetary basis) as opposed to revenues being recorded when they are susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budgetary basis) as opposed to expenditures being recorded when the related fund liability is incurred (GAAP basis).
3. For budgetary reporting purposes, continuing appropriations are reported with other financing sources and uses in the determination of the budgetary surplus or deficit to more fully demonstrate compliance with authorized spending for the year. For GAAP purposes, continuing appropriations are excluded from operations and reported as reserved fund balance.

**Note 3 Nonmajor Fund Deficits**

The following funds have deficit fund/net assets balances at June 30, 2005, none of which constitutes a violation of statutory provisions (amounts in thousands).

<b>Special Revenue Fund</b>	
Consumer Counsel and Public Utility Control	\$ 83
<b>Enterprise</b>	
Bradley Parking Garage	\$ 6,673
Rate Reduction Bond Operations	\$ 178,503
<b>Internal Service</b>	
Administrative Services	\$ 33,777

**Note 4 Cash Deposits and Investments**

In 2005 the State implemented GASB Statement No. 40, "Deposit and Investment Risk Disclosures". According to the Statement, the State needs to make certain disclosures about deposit and investment risks that have the potential to result in losses. Thus, the following deposit and investment risks are discussed in this note:

- Interest Rate Risk - the risk that changes in interest rates will adversely affect the fair value of an investment.
- Credit Risk - the risk that an issuer or other counterparty to an investment will not fulfill its obligations.
- Concentration of Credit Risk - the risk of loss attributed to the magnitude of an investment in a single issuer.
- Custodial Credit Risk (deposits) - the risk that, in the event of a bank failure, the State's deposits may not be recovered.

**Custodial Credit Risk (investments)** - the risk that, in the event of a failure of the counterparty, the State will not be able to recover the value of investments or collateral securities that are in the possession of an outside party.

**Foreign Currency Risk** - the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit.

**Primary Government**

The State Treasurer is the chief fiscal officer of State government and is responsible for the prudent management and investment of monies of State funds and agencies as well as monies of pension and other trust funds. The State Treasurer with the advice of the Investment Advisory Council, whose members include outside investment professionals and pension beneficiaries, establishes investment policies and guidelines. Currently, the State Treasurer manages one Short-Term Investment Fund and seven Combined Investment Funds, including one international investment fund.

**Short-Term Investment Fund (STIF)**

STIF is a money market investment pool in which the State, municipal entities, and political subdivisions of the State are eligible to invest. The State Treasurer is authorized to invest monies of STIF in United States government and agency obligations, certificates of deposit, commercial paper, corporate bonds, savings accounts, bankers' acceptances, repurchase agreements, asset-backed securities, and student loans. STIF's investments are reported at amortized cost (which approximates fair value) in the fund's statement of net assets.

For financial reporting purposes, STIF is considered to be a mixed investment pool - a pool having external and internal portions. The external portion of STIF (i.e. the portion that belongs to participants which are not part of the State's financial reporting entity) is reported as an investment trust fund (External Investment Pool fund) in the fiduciary fund financial statements. The internal portion of STIF (i.e., the portion that belongs to participants that are part of the State's financial reporting entity) is not reported in the financial statements. Instead, each fund's investment in the internal portion of STIF is reported as "cash equivalents" in the government-wide and fund financial statements.

As of June 30, 2005, STIF had the following investments (amounts in thousands):

**Short-Term Investment Fund**

<b>Investment Type</b>	<b>Amortized Cost</b>
Commercial Paper	\$ 450,000
Asset Backed Commercial Paper:	
Multi-Seller	138,926
Secured Liquidity Notes	1,475,438
Securities Backed	623,263
Floating Rate Bonds	147,874
Repurchase Agreements	283,915
<b>Total Investments</b>	<b>\$ 3,119,416</b>

**Interest Rate Risk**

The STIF's policy for managing interest rate risk is to limit investment to a very short weighted average maturity, not to exceed 90 days, and to comply with Standard and Poor's requirement that the weighted average maturity not to exceed

60 days. As of June 30, 2005, the weighted average maturity of the STIF was 32 days. Additionally, STIF is allowed by policy to invest in floating-rate securities, and limit total exposure to 20 percent. For purposes of the weighted average maturity calculation, variable-rate securities are calculated using their rate reset date. Because these securities reprice frequently to prevailing market rates, interest rate risk is substantially reduced. As of June 30, 2005, the amount of STIF's investments in variable-rate securities was \$147.9 million.

**Credit Risk**

The STIF's policy for managing credit risk is to invest in debt securities that fall within the highest short-term or long-term rating categories by nationally recognized rating organizations. As of June 30, 2005, STIF's investments were rated by Standard and Poor's as follows (amounts in thousands):

**Short-Term Investment Fund**

<b>Investment Type</b>	<b>Amortized Cost</b>	<b>Quality Ratings</b>		
		<b>AAA</b>	<b>AA</b>	<b>A-1+</b>
Commercial Paper	\$ 450,000	\$ -	\$ -	\$ 450,000
Asset Backed Commercial Paper:				
Multi-Seller	138,926	-	-	138,926
Secured Liquidity Notes	1,475,438	-	-	1,475,438
Securities Backed	623,263	-	-	623,263
Floating Rate Bonds	147,874	86,909	60,965	-
Repurchase Agreements	283,915	283,915	-	-
<b>Total</b>	<b>\$ 3,119,416</b>	<b>\$ 370,824</b>	<b>\$ 60,965</b>	<b>\$ 2,687,627</b>

**Concentration of Credit Risk**

STIF reduces its exposure to this risk by requiring that not more than 10% of its portfolio be invested in securities of a single bank or corporation. Policy limits are also set for industry concentration, floating rate investment concentration and sector concentration. As of June 30, 2005, STIF's investments in any one single issuer that represents more than 5% of total investments were as follows (amounts in thousands):

<b>Investment Issuer</b>	<b>Amortized Cost</b>
Albis Capital Corporation	\$ 266,830
ASAP Funding	\$ 259,905
Freedom Park	\$ 267,336
GE Capital Corporation	\$ 411,910

**Custodial Credit Risk-Bank Deposits-Nonnegotiable Certificate of Deposits (amounts in thousands):**

The STIF follows policy parameters that limit deposits in any one entity to a maximum of ten percent of assets. Further, the certificate of deposits must be issued from commercial banks whose short-term debt is rated at least A-1 by Standard and Poor's and F-1 by Fitch and whole long-term debt is rated at least A and its issuer rating is at least "C". As of June 30, 2005, \$1,199,700 of the bank balance of STIF's deposits of \$1,200,000 was exposed to custodial credit risk as follows

Uninsured and uncollateralized	\$ 1,079,700
Uninsured and collateral held by trust department of either the pledging bank or another bank not in the name of the State	120,000
<b>Total</b>	<b>\$ 1,199,700</b>

**Combined Investment Funds (CIFS)**

The CIFS are open-ended, unitized portfolios in which the State pension trust and permanent funds are eligible to invest. The State pension trust and permanent funds own the units of the CIFS. The State Treasurer is also authorized to invest monies of the CIFS in a broad range of fixed income and equity securities, as well as real estate properties, mortgages, and private equity. CIFS' investments are reported at fair value in each fund's statement of net assets.

For financial reporting purposes, the CIFS are considered to be internal investment pools and are not reported in the financial statements. Instead, each fund's equity in the CIFS is reported as investments in the government-wide and fund financial

statements. As of June 30, 2005, the amount of equity in the CIFS reported as investments in the financial statements was as follows (amounts in thousands):

	Primary Government		
	Governmental Activities	Business-Type Activities	Fiduciary Funds
Equity in CIFS	\$ 91,679	\$ 608	\$21,206,864
Other Investments	45,224	161,026	732,496
Total Investments-Current	<u>\$ 136,903</u>	<u>\$ 161,634</u>	<u>\$21,939,360</u>

As of June 30, 2005, the CIFS had the following investments and maturities (amounts in thousands):

**Combined Investment Funds**

Investment Type	Fair Value	Investment Maturities (in years)			
		Less Than 1	1-5	6-10	More Than 10
Cash Equivalents	\$ 708,309	\$ 654,141	\$ 54,168	\$ -	\$ -
Asset Backed Securities	550,401	-	397,158	152,552	691
Government Securities	1,694,411	104,220	712,476	379,632	498,083
Government Agency Securities	1,391,637	-	54,004	79,916	1,257,717
Mortgage Backed Securities	683,404	-	14,400	58,216	610,788
Corporate Debt	2,227,231	135,452	821,914	791,801	478,064
Convertible Securities	33,214	2,341	12,559	16,301	2,013
Mutual Fund	223,364	-	-	65,540	157,824
Total Debt Investments	<u>7,511,971</u>	<u>\$ 896,154</u>	<u>\$ 2,066,679</u>	<u>\$1,543,958</u>	<u>\$3,005,180</u>
Common Stock	12,080,219				
Preferred stock	77,336				
Real Estate Investment Trust	117,112				
Mutual Fund	104,007				
Limited liability Corporation	16,964				
Trusts	52,613				
Limited Partnerships	1,612,794				
Annuities	249				
Total Investments	<u>\$ 21,573,265</u>				

**Interest Rate Risk**

CIFS' investment managers are given full discretion to manage their portion of CIFS' assets within their respective guidelines and constraints. The guidelines and constraints require each manager to maintain a diversified portfolio at all times. In addition, each core manager is required to maintain a target duration that is similar to its respective benchmark which is typically the Lehman Brother Aggregate-an intermediate duration index.

**Credit Risk**

As of June 30, 2005, CIFS' debt investments were rated by Moody's as follows (amounts in thousands):

**Combined Investment Funds**

Quality Ratings	Fair Value	Cash Equivalents	Asset Backed Securities	Government Securities	Government Agency Securities	Mortgage Baked Securities	Corporate Debt	Convertible Debt	Mutual Fund
Aaa	\$4,088,153	\$ 7,997	\$ 540,415	\$ 1,529,447	\$ 1,345,159	\$ 466,323	\$ 195,306	\$ 3,506	\$ -

**Foreign Currency Risk**

The CIFS manage exposure to this risk by utilizing a strategic hedge ratio of 50% for the developed market portion of the International Stock Fund (a Combined Investment Fund). This strategic hedge ratio represents the neutral stance or desired long-term exposure to currency for the ISF. To implement this policy, currency specialists actively manage the currency portfolio as an overlay strategy to the equity investment managers. These specialists may manage the portfolio passively or actively depending on opportunities in the market place. While managers within the fixed income portion of the portfolio are allowed to invest in non-U.S. denominated securities, managers are required to limit that investment to a portion of their respective portfolios. As of June 30, 2005, CIFS' foreign deposits and investments were as follows (amounts in thousands):

**Combined Investment Funds**

Foreign Currency	Total	Cash	Fixed Income Securities			Equities		
			Government Securities	Corporate Debt	Convertible Securities	Common Stock	Preferred Stock	Real Estate Investment Trust

**Custodial Credit Risk-Bank Deposits**

The CIFS minimize this risk by maintaining certain restrictions set forth in the Investment Policy Statement. The CIFS use a Cash Reserve Account which is a cash management pool investing in highly liquid money market securities. As of June 30, 2005, the CIFS had deposits with a bank balance of \$21.8 million which was uninsured and uncollateralized.

Complete financial information about the STIF and the CIFS can be obtained from financial statements issued by the Office of the State Treasurer.

**Other Investments**

As of June 30, 2005, the State had other investments and maturities as follows (amounts in thousands):

Investment Type	Fair Value	Investment Maturities (in years)			
		Less Than 1	1-5	6-10	More Than 10
Repurchase Agreements	\$ 71,252	\$ 71,252	\$ -	\$ -	\$ -
State/Municipal Bonds	75,601	152	1,839	19,362	54,248

Money Market Funds	117,394	117,394	-	-	-
<b>Total</b>	<b>\$ 1,255,923</b>	<b>\$ 175,997</b>	<b>\$ 369,539</b>	<b>\$ 11,509</b>	<b>\$ 698,878</b>

The Connecticut Housing Finance Authority (CHFA) and the Connecticut Health and Education Facilities Authority (CHEFA) own 87.4% and 12.6% of the above investments, respectively. GNMA Program Assets represent securitized home mortgage loans of CHFA which are guaranteed by the Government National Mortgage Association.

**Interest Rate Risk**

**CHFA**

Exposure to declines in fair value is substantially limited to GNMA Program Assets. The Authority's investment policy requires diversification of its investment portfolio to eliminate the risk of loss resulting from, among other things, an over-concentration of assets in a specific maturity.

**CHEFA**

The Authority manages its exposure to this risk by designing its portfolio of unrestricted investments with the objective of regularly exceeding the average return of 90 day U.S. Treasury Bills. This is considered to be a benchmark for riskless investment transactions and therefore represents a minimum standard for the portfolio's rate of return. The Authority's

**Custodial Credit Risk-Bank Deposits (amounts in thousands):**

The State maintains its deposits at qualified financial institutions located in the state to reduce its exposure to this risk. These institutions are required to maintain, segregated from its other assets, eligible collateral in an amount equal to 10 percent, 25 percent, 100 percent, or 120 percent of its public deposits. The collateral is held in the custody of the trust department of either the pledging bank or another bank in the name of the pledging bank. As of June 30, 2005, \$33,453 of the bank balance of the Primary Government of \$35,110 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 29,715
Uninsured and collateral held by trust department of either the pledging bank or another bank not in the name of the State	3,838
<b>Total</b>	<b>\$ 33,553</b>

policy as it relates to restricted investments provides that all restricted accounts be invested in strict accordance with the bond issue trust indentures, with the above policy and with applicable Connecticut State Law.

**Credit Risk**

**CHFA**

The Authority's investments are limited by state statutes to United States Government obligations, including its agencies or instrumentalities, investments guaranteed by the state, investments in the CIFS, and other obligations which are legal investments for savings banks in the state. Repurchase agreements, investment agreements, and the Federated Funds are fully collateralized by obligations issued by the United States Government or its agencies. Mortgage Backed Securities and Collateralized Mortgage Obligations are fully collateralized by the Federal National Mortgage Association or the United States Department of Housing and Urban Development mortgage pools.

**CHEFA**

The Authority has an investment policy that would further limit its investment choices beyond those limited by state statutes for both unrestricted and restricted investments. For example, investments that may be purchased by the Authority with the written approval of an officer, provided that the investment has a maturity of one year or less, are obligations issued or guaranteed by the U.S. Government, the state's Short-Term Investment Fund (STIF), etc.

As of June 30, 2005, major component units' investments were rated by Standard and Poor's as follows (amounts in thousands):

**Component Units**

Investment Type	Fair Value	Quality Ratings				
		AAA	A	BBB	C	Unrated
Collateralized Mortgage Obligations	\$ 4,239	\$ 755	\$ -	\$ -	\$ -	\$ 3,484
Corporate Finance Bonds	8,316	-	2,357	5,959	-	-
Corporate Notes	8,480	-	6,839	1,641	-	-
Fidelity Tax Exempt Fund	8,416	-	-	-	-	8,416

Mortgage Backed Securities	7,385	877	-	-	-	6,508
Structured Securities	468	-	-	-	468	-
Money Market Funds	117,394	117,394	-	-	-	-

**Concentration of Credit Risk**

**CHFA**

The Authority's investment policy requires diversification of its investment portfolio to eliminate the risk of loss resulting from, among other things, an over-concentration of assets with a specific issuer. The Guaranteed Investment Contract with Rabobank International represents 24.6% of the Authority's portfolio at year end. If Rabobank's ratings fall below AA (S&P's) or Aa2 (Moody's), this Agreement requires Rabobank to collateralize it with direct obligations issued by the United States Government or its agencies, or assign it to an entity that has the required ratings.

**CHEFA**

For unrestricted investments, the Authority places limits on the amount of investment in any one issuer. No issuer other than the United States Treasury or the State's Short-Term Investment Fund shall constitute greater than 5 % of unrestricted investments, except for qualified money market or mutual bond funds, none of which shall constitute greater than 50% of general fund investments. At year end, the Authority was in compliance with this policy. The Authority places no limit on the amount of investments in any one issuer for restricted investments. At year end, the Authority's guaranteed investment contracts with Trinity Funding, LLC represents 20% of the Authority's portfolio.

During the year, the funds' lending agent lent securities similar to the types on loan at year-end and received cash (United States and foreign currency), U.S. Government securities, sovereign debt rated A or better, convertible bonds, and irrevocable bank letters of credit as collateral. The funds' lending agent did not have the ability to pledge or sell collateral securities delivered absent borrower default. Borrowers were required to deliver collateral for each loan equal to: (1) in the case of loaned securities denominated in United States dollars or whose primary trading market was located in the United States or sovereign debt issued by foreign governments, 102 percent of the market value of the loaned securities; and (2) in the case of loaned securities not denominated in United States dollars or whose primary trading market was not located in the United States, 105 percent of the market value of the loaned securities. The funds did not impose any restrictions during the fiscal year on the amount of loans that the lending agent made on their behalf and the lending agent indemnified the funds by agreeing to purchase replacement securities, or return the cash collateral thereof in the event any borrowers failed to return the loaned securities or pay distributions thereon. As of June 30, 2005, the funds had no credit exposure to the borrowers, because the value of collateral held and the market value securities on loan were \$2,673.7 million and \$2,595.3 million, respectively.

**Security Lending Transactions**

Certain of the Combined Investment Funds are permitted by State statute to lend its securities through a lending agent to authorized broker-dealers and banks for collateral with a simultaneous agreement to return the collateral for the same securities in the future.

All securities loans can be terminated on demand by either the funds or the borrowers. Cash collateral is invested by the funds' lending agent, and the average duration of the investments can not exceed (a) 120 days or (b) the average duration of the loans by more than 45 days. At year-end, the average duration of the collateral investments was 37 days; the average duration of the loans was unknown, although it is assumed to remain at one day.

**Note 5 Receivables-Current**

As of June 30, 2005, current receivables consisted of the following (amounts in thousands):

	Primary Government		
	Governmental Activities	Business-Type Activities	Component Units
Taxes	\$ 1,002,186	\$ -	\$ -

**Note 7 Receivables-Noncurrent**

Noncurrent receivables for the primary government and its component units, as of June 30, 2005, consisted of the following (amounts in thousands):

	Primary Government		Component Units
	Governmental Activities	Business-Type Activities	
Accounts	\$ -	\$ 3,020	\$ 15,574
Loans	198,791	547,236	131,644
Total Receivables	198,791	550,256	147,218
Allowance for Uncollectibles	(10,267)	(7,717)	(10,948)
Receivables, Net	\$ 188,524	\$ 542,539	\$ 136,270

The Clean Water fund (business-type activities) loans funds to qualified municipalities for planning, design, and construction of water quality projects. These loans are payable over a 20 year period at an annual interest rate of 2 percent and are secured by the full faith and credit or revenue pledges of the municipalities, or both. At year end, the noncurrent portion of loans receivable was \$475 million.

The Connecticut Development Authority (a component unit) loans funds to finance the purchase of land, buildings, and equipment by qualified applicants and to finance other economic development programs of the Authority. These loans are collateralized by assets acquired from proceeds of the related loans and have originating terms of 1 to 25 years and earn interest at rates ranging from 2.34 percent to 11.15 percent. As of June 30, 2005, the noncurrent portion of loans receivable was \$63 million. In addition, loans in the amount of \$9.3 million (including loans of \$6.5 million made by other lending institutions) were insured by an insurance fund created by the Authority and by the faith and credit pledged by the State. This insurance fund had net assets of \$(142) thousand at year-end. Thus, the State is contingently liable in the event of any defaulted loans that could not be paid out of the assets of the insurance fund.

**Note 8 Restricted Assets**

Restricted assets are defined as resources that are restricted by legal or contractual requirements. As of June 30, 2005, restricted assets were comprised of the following (amounts in thousands):

	Cash & Cash Equivalents	Investments	Loans, Net of Allowances	Other	Total Restricted Assets
<b>Governmental Activities:</b>					
Debt Service	\$ 208,541	\$ 468,452	\$ -	\$ -	\$ 676,993

**Component Units**

Capital assets of the component units consisted of the following as of June 30, 2005 (amounts in thousands):

Land	\$	28,625
Buildings		413,058
Improvements other than Buildings		2,658
Machinery and Equipment		249,179
Construction in Progress		71
Total Capital Assets		693,591
Accumulated Depreciation		(261,360)
Capital Assets, net	\$	432,231

**Note 11 State Retirement Systems**

The State sponsors three major public employee retirement systems: the State Employees' Retirement System (SERS)-consisting of Tier I (contributory), Tier II (noncontributory) and Tier IIA (contributory), the Teachers' Retirement System (TRS), and the Judicial Retirement System (JRS).

The State Comptroller's Retirement Division under the direction of the Connecticut State Employees Retirement Division administers SERS and JRS. The Teachers' Retirement Board administers TRS. None of the above mentioned systems issue stand-alone financial reports. However, financial statements for SERS, TRS, and JRS are presented in Note No. 13.

**Plan Descriptions, Funding Policy, and Annual Pension Cost and Net Pension Obligation**

Membership of each plan consisted of the following at the date of the latest actuarial evaluation:

	SERS 6/30/2004	TRS 6/30/2004	JRS 6/30/2004
Retirees and beneficiaries receiving benefits	36,749	24,297	217
Terminated plan members entitled to but not yet receiving benefits	1,744	1,250	3
Active plan members	47,926	49,946	220
Total	86,419	75,493	440

**State Employees' Retirement System**

**Plan Description**

SERS is a single-employer defined-benefit pension plan covering substantially all of the State full-time employees who are not eligible for another State sponsored retirement plan. Plan benefits, cost-of-living adjustments, contribution requirements of plan members and the State, and other plan provisions are described in Sections 5-152 to 5-192 of the General Statutes. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

**Funding Policy**

The contribution requirements of plan members and the State are established and may be amended by the State legislature. Tier I Plan B and Hazardous Duty members are required to contribute 2 percent and 4 percent respectively, of their salary up to the Social Security Taxable Wage Base plus 5 percent above that level; Tier I Plan C members are required to contribute 5 percent of their annual salary; Tier IIA members are required to contribute 2 percent and hazardous duty members are required to contribute 5 percent. The State is required to contribute at an actuarially

determined rate. Administrative costs of the plan are funded by the State.

**Teachers Retirement System**

**Plan Description**

TRS is a single-employer defined-benefit pension plan covering any teacher, principal, superintendent or supervisor engaged in service of public schools in the State. Plan benefits, cost-of-living allowances, required contributions of plan members and the State, and other plan provisions are described in Sections 10-183b to 10-183pp of the General Statutes. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

**Funding Policy**

The contribution requirements of plan members and the State are established and may be amended by the State legislature. Plan members are required to contribute 6 percent of their annual salary. The State is required to contribute at an actuarially determined rate. For fiscal year 2005, the annual required contribution (ARC) was \$281.4 million; however, the State contributed \$185.3 million to the plan, reflecting a reduction of \$96.1 million by the legislature to the State's TRS appropriation. Administrative costs of the plan are funded by the State.

**Judicial Retirement System**

**Plan Description**

JRS is a single-employer defined-benefit pension plan covering any appointed judge or compensation commissioner in the State. Plan benefits, cost-of-living allowances, required contributions of plan members and the State, and other plan provisions are described in Sections 51-49 to 51-51 of the General Statutes. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

**Funding Policy**

The contribution requirements of plan members and the State are established and may be amended by the State legislature. Plan members are required to contribute 6 percent of their annual salary. The State is required to contribute at an actuarially determined rate. Administrative costs of the plan are funded by the State.

**Annual Pension Cost, Net Pension Obligation, and Related Information**

The State's annual pension cost and net pension obligation to SERS, TRS, and JRS for the current year were as follows (amounts in thousands):

	SERS	TRS	JRS
Annual required contribution	\$ 518,764	\$ 281,366	\$ 12,236
Interest on net pension obligation	182,369	110,057	4
Adjustment to annual required contribution	(119,051)	(73,445)	(2)
Annual pension cost	582,082	317,978	12,238
Contributions made	518,764	185,348	12,236
Increase (decrease) in net pension obligation	63,318	132,630	2
Net pension obligation beginning of year	2,145,521	1,294,790	43
Net pension obligation end of year	\$ 2,208,839	\$ 1,427,420	\$ 45

Three-year trend information is as follows (amounts in thousands):

	<b>Fiscal Year</b>	<b>Annual Pension Cost (APC)</b>	<b>Percentage of APC Contributed</b>	<b>Net Pension Obligation</b>
SERS	2003	\$ 485,527	86.8%	\$ 2,081,663

#### **Defined Contribution Plan**

The State also sponsors the Connecticut Alternate Retirement Program (CARP), a defined contribution plan. CARP is administered by the State Comptroller's Retirement Office under the direction of the Connecticut State Employees Retirement Division. Plan provisions, including contribution requirements of plan members and the State, are described in Section 5-156 of the General Statutes.

Unclassified employees at any of the units of the Connecticut State System of Higher Education are eligible to participate in the plan. Plan members are required to contribute 5 percent of their annual salaries. The State is required to contribute 8 percent of covered salary. During the year, plan members and the State contributed \$26.3 million and \$41.4 million, respectively.

#### **Note 12 Other Retirement Systems Administered by the State of Connecticut**

The State acts solely as the administrator and custodian of the assets of the Connecticut Municipal Employees' Retirement System (CMERS) and the Connecticut Probate Judges and Employees Retirement System (CPJERS). The State makes no contribution to and has only a fiduciary responsibility for these funds. None of the above mentioned systems issue stand-alone financial reports. However, financial statements for CMERS and CPJERS are presented in Note No. 13.

#### **Plan Descriptions and Contribution Information**

Membership of each plan consisted of the following at the date of the latest actuarial valuation:

	<b>CMERS 6/30/2004</b>	<b>CPJERS 12/31/2004</b>
Retirees and beneficiaries receiving benefits	4,876	255
Terminated plan members entitled to but not receiving benefits	550	29
Active plan members	8,403	383
Total	<u>13,829</u>	<u>667</u>
Number of participating employers	164	1

#### **Connecticut Municipal Employees' Retirement System Plan Description**

CMERS is a cost-sharing multiple-employer defined benefit pension plan that covers fire, police, and other personnel (except teachers) of participating municipalities in the State. Plan benefits, cost-of-living adjustments, contribution requirements of plan members and participating municipalities, and other plan provisions are described in Chapters 7-425 to 7-451 of the General Statutes. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

#### **Contributions**

Plan members are required to contribute 2.25 percent to 5.0 percent of their annual salary. Participating municipalities are required to contribute at an actuarial determined rate. The participating municipalities fund administrative costs of the plan.

#### **Connecticut Probate Judges and Employees' Retirement System**

##### **Plan Description**

CPJERS is a single-employer defined benefit pension plan that covers judges and employees of probate courts in the State. Plan benefits, cost-of-living adjustments, required contributions of plan members and the probate court system, and other plan provisions are described in Chapters 45a-34 to 45a-56 of the General statutes. The plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments to plan members and their beneficiaries.

#### **Contributions**

Plan members are required to contribute 1.0 percent to 3.75 percent of their annual salary. The probate court system is required to contribute at an actuarial determined rate. Administrative costs of the plan are funded by the probate court system.

**Note 13 Pension Trust Funds Financial Statements**

The financial statements of the pension trust funds are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. State contributions are recognized in the period in which the contributions are appropriated. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Investment income and related expenses of the Combined Investment Funds are allocated ratably to the pension trust funds based on each fund's equity in the Combined Investment Funds. (see Note No. 4) (amounts in thousands):

**Note 14 Postemployment Benefits**

In addition to the pension benefits described in Note 11, the State provides postretirement health care and life insurance benefits, in accordance with State statutes, Sections 5-257(d) and 5-259(a), to all employees who retire from the State.

As of June 30, 2005, 35,942 retirees of the State Employees Retirement System meet those eligibility requirements. When employees retire, the State may pay up to 100 percent of their health care insurance premium cost (including dependent's coverage) based on the plan chosen by the employee. In addition, the State pays 100 percent of the premium cost for a portion of the employees' life insurance, continued after retirement. The amount of life insurance, continued at no cost to the retiree, is determined based on the number of years of service that the retiree had with the State at time of retirement as follows: (a) if the retiree had 25 years or more of service, the amount of insurance will be one-half of the amount of insurance for which the retiree was insured immediately prior to retirement, but the reduced amount cannot be less than \$7,500 (b) if the retiree had less than 25 years of service, the amount of insurance will be the proportionate amount that such years of service is to 25, rounded to the nearest \$100. The State finances the cost of postretirement health care and life insurance benefits on a pay-as-you-go basis through an appropriation in the General Fund. During the year ended June 30, 2005, \$377.3 million was paid in postretirement benefits.

**Note 15 Capital and Operating Leases****State as Lessor**

The State leases building space, land, and equipment to private individuals. The minimum future lease revenues for the next five years and thereafter are as follows (amounts in thousands):

2006	\$	35,552
2007		31,375
2008		32,601
2009		32,632
2010		27,803
Thereafter		20,163
Total	\$	180,126

Contingent revenues for the year ended June 30, 2005, were \$2.3 million.

**State as Lessee**

Obligations under capital and operating leases as of June 30, 2005, were as follows (amounts in thousands):

	Noncancelable Operating Leases	Capital Leases
2006	\$ 34,186	\$ 8,260
2007	21,130	7,961
2008	15,674	7,577
2009	13,089	7,484
2010	17,811	7,173
2011-2015	12,062	32,406
2016-2020	-	14,536
2021-2025	-	6,136
2026-2030	-	6,102
2031-2035	-	1,215
Total minimum lease payments	\$ 113,952	98,850
Less: Amount representing interest costs		21,895
Present value of minimum lease payments		\$ 76,955

Minimum capital lease payments were discounted using an interest rate of approximately 6 percent.

Rental and lease payments for equipment charged to expenditures during the year ended June 30, 2005, totaled \$27.0 million.

**Lease/Lease Back Transaction**

On September 30, 2003 the State executed a U.S. Lease-to-Service Contract of Rolling Stock Agreement (Agreement) whereby the state entered into a head lease of certain rolling stock consisting of rail coaches and locomotives to statutory trusts established for the benefit of three equity investors. Simultaneously, the State executed sublease agreements to lease back the rolling stock in order to allow the State to have continued use of the property. The terms of the head leases are for periods ranging from 40 years to 67 years, expiring through March 2071, while the subleases have terms ranging from 18 years to 28 years, expiring through January 2032. At the end of the respective sublease terms, the State will have the option to purchase the statutory trusts' interest in the rolling stock for an aggregate fixed price.

Proceeds from the prepayment of the head lease rents were paid to debt payment undertakers and custodians in amounts sufficient, together with investment earning thereon, to provide for all future obligations of the State under the sublease agreements and the end of lease term purchase options. Although it is remote that the State will be required to make any additional payments under the sublease, the State is and shall remain liable for all of its obligations under the subleases. The aggregate remaining commitment under the subleases totaled approximately \$343 million at June 30, 2005.

The State is obligated to insure and maintain the rolling stock. In addition, if an equity investor suffers a loss of tax deductions or incurs additional taxable income as a result of certain circumstances, as defined in the Agreement, then the State must indemnify the equity investor for the additional tax incurred, including interest and penalties thereon. The State has the right to terminate the sublease early under certain circumstances and upon payment of a termination value to the equity investors. If the State chooses early termination, then the termination value would be paid from funds available from the debt payment undertakers and the custodians, and if such amounts are insufficient, then the State would be required to pay the difference.

**Note 16 Long-Term Debt**

a) The following is a summary of changes in long-term debt of the primary government for the year ended June 30, 2005; (amounts in thousands):

	Balance July 1, 2004	Additions	Reductions	Balance June 30, 2005	Amounts due within one year

Special Tax Obligation	416,035	2003	2022
General Obligation	300,000	2005	2023
Total	\$ 1,119,935		

The State entered into various Remarketing and Standby Bond Purchase agreements with certain brokerage firms and banks upon the issuance of the bonds.

The bonds were issued bearing a weekly interest rate, which is determined by the State's remarketing agents. The State has the option of changing at any time the weekly interest rate on the bonds to another interest rate, such as a flexible rate or a daily rate. Bonds bearing interest at the weekly rate are subject to purchase at the option of the bondholder at a purchase price equal to principal plus accrued interest, if

any, on a minimum seven days' notice of tender to the State's agent. In addition, the bonds are subject to mandatory purchase upon (1) conversion from the weekly interest rate to another interest rate and (2) substitution or expiration of the Standby Bond Purchase agreements. The State's remarketing agent is responsible for using its best efforts to remarket bonds properly tendered for purchase by bondholders from time to time. The State is required to pay the Remarketing agents a quarterly fee of .05 percent per annum of the outstanding principal amount of the bonds.

The Standby Bond Purchase agreements require the banks to purchase any unremarketed bonds bearing the weekly interest rate for a price not to exceed the amount of bond principal and accrued interest, if any. The State is required to pay the banks a quarterly fee ranging from .065 percent to .20 percent per annum of the outstanding principal amount of the bonds plus interest. These fees would be increased if the credit rating for the bond insurers was to be downgraded, suspended, or withdrawn.

The Standby Bond Purchase agreements expire as follows:

1990 STO expires in the year 2010,  
1997 GO expires in the year 2014,  
2000 STO expires in the year 2014 and could be extended for another seven years,  
2001 GO expires in the year 2008,  
2003 STO expires in the year 2008 and could be extended for another five years, and  
2005 GO expires in the year 2015.

These agreements could be terminated at an earlier date if certain termination events described in the agreements were to occur.

**Interest Rate Swaps***Objective of the swaps*

As a means to lower its borrowing costs, when compared against fixed-rate bonds at the time of issuance, the State has entered into eleven separate pay-fixed, receive-variable interest rate swaps at a cost less than what the State would have paid to issue fixed-rate debt. Two of the swaps were executed in December 1990, one was executed in June 2001, three were executed in January 2003, and five were executed in March and April of 2005.

*Terms, fair values, and credit risk*

The terms, including the fair values and credit ratings of the outstanding swaps as of June 30, 2005, are as follows. The notional amount of the swaps matches the principal amount of the associated debt. The State's swap agreements, except for the CPI swaps, contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated debt. For the CPI swaps, the swap agreements and associated debt are non-amortizing and mature on the same date.

Associated Bond Issue	Notional Amounts (000's)	Effective Date	Fixed Rate Paid	Variable Rate Received	Fair Values (000's)	SWAP Termination Date	Counterparty Credit Rating <sup>1</sup>
1990 STO	\$ 68,400	12/19/1990	5.746%	65% of LIBOR (1)	\$ (6,089)	12/1/2010	Aa2/AA/AA
1990 STO	45,500	12/19/1990	5.709%	65% of LIBOR (1)	(4,012)	12/1/2010	A1/A/NR
2001 GO	20,000	6/28/2001	4.330%	CPI (3) plus 1.43%	(411)	6/15/2012	Aa3/A+/AA-
2003 STO	118,645	1/23/2003	3.293%	BMA(2) monthly weighted average less 10bp (through 1/3/07); 55% LIBOR (1) plus 50 bp thereafter	(4,070)	2/1/2022	Aa2/AA/AA-
2003 STO	98,600	1/23/2003	3.288%	BMA(2) monthly weighted average less 10bp (through 1/3/07); 55% LIBOR (1) plus 50 bp thereafter	(3,288)	2/1/2022	Aa1/AA/AA+
2003 STO	198,790	1/23/2003	3.284%	BMA(2) monthly weighted average less 10bp (through 1/3/07); 55% LIBOR (1) plus 50 bp thereafter	(6,834)	2/1/2022	Aa2/AA+/AA+
2005 GO	140,000	3/24/2005	3.392%	60% of LIBOR (1) plus 30bp	(4,422)	3/1/2023	AA+
2005 GO	140,000	3/24/2005	3.401%	60% of LIBOR (1) plus 30bp	(4,508)	3/1/2023	Aa1
2005 GO	15,620	4/27/2005	3.620%	CPI (3) plus .62%	(998)	6/1/2016	Aa3/A+/AA-
2005 GO	20,000	4/27/2005	4.700%	CPI (3) plus 1.73%	(1,392)	6/1/2017	Aa3/A+/AA-
2005 GO	20,000	4/27/2005	4.760%	CPI (3) plus 1.79%	(1,385)	6/1/2020	Aaa/AAA/AAA
<b>Total</b>	<b>\$ 885,555</b>				<b>\$ (37,409)</b>

### *Fair value*

Because interest rates have declined, all swaps have negative fair values as of June 30, 2005. The negative fair values may be countered by reductions in total interest payments required under the variable-rate bonds, creating lower synthetic interest rates. Because the coupons on the State's variable-rate bonds adjust to changing interest rates, the bonds do not have corresponding fair value increases. The fair values were estimated using the zero-coupon method. This method calculates the future net settlement payment required under the swaps, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date each future net settlement on the swaps.

As of June 30, 2005, the State had no credit risk exposure on the outstanding swaps because the swaps had negative fair values. However, should interest rates change and the fair values of the swaps become positive, the State would be exposed to credit risk in the amount of the swaps' fair value.

The swap agreements contain varying collateral agreements with the counterparties. The 2003 and 2005 swap agreements require collateralization of the fair value of the swap in cash or government securities should the counterparty's credit rating fall below Aa3 as issued by Moody's Investors Service or AA- as issued by Standard & Poor's Ratings or Fitch Ratings. One of the swaps executed in 1990 requires collateral of cash or securities if the counterparty credit rating falls below A1/A+. The other swap agreements do not have collateral provisions. No collateral was required to be posted for any of the swaps at June 30, 2005. The State is not required to post collateral for any of the swaps.

Master netting arrangements do not apply to these transactions because the state has only one derivative transaction with each counterparty.

Approximately 22 percent of the notional amount of swaps outstanding is held with one counterparty, rated Aa2/AA+. One of the December 1990 swaps, approximately 5% of the notional amount of swaps outstanding, is held with the lowest rated counterparty, rated A1/A. All other swaps are held with separate counterparties who are rated Aa3/A+ or better.

### *Basis Risk*

The State's variable-rate bond coupon payments are equivalent to the BMA index rate, or the CPI floating rate. For those swaps for which the State receives a variable-rate payment other than BMA or CPI, the State is exposed to basis risk should the relationship between LIBOR and BMA converge. If a change occurs that results in the rates' moving to convergence, the expected cost savings may not be realized. As of June 30, 2005, the BMA rate was 2.43 percent, whereas 65 percent and 60 percent plus 30bp of LIBOR were 2.17 and 2.30 percent, respectively. The State recognizes this basis risk by including an amount for basis risk in its debt service budget. For fiscal year 2005, the budgeted amount for basis risk was \$1,500,000.

### *Termination Risk*

The State or the counterparty may terminate any of the swaps if the other party fails to perform under the terms of the contract. If any swap is terminated, the associated variable-rate bonds would no longer carry synthetic interest rates. Also, if at the time of termination the swap has a negative fair value, the State would be liable to the counterparty for a payment equal to the swap's fair value. Under the 2003 and 2005 swap agreements, the State has up to 270 days to fund any required termination payment. Under the 1990 swap agreements, the State may fund any required termination payment over a five-year period.

### *Rollover Risk*

Because all of the swap agreements terminate when the associated debt is fully paid, the State is only exposed to rollover risk if an early termination occurs. Upon an early termination, the State will not realize the synthetic rate offered by the swaps on the underlying debt issues.

**Swap Payments and Associated Debt**

Using rates as of June 30, 2005, debt service requirements of the State's outstanding variable-rate bonds and net swap payments are as follows (amounts in thousands). As rates vary, variable-rate bond interest payments and net swap payments will vary.

Fiscal Year Ending June 30,	Variable-Rate Bonds		Interest Rate		Total
	Principal	Interest	SWAP, Net		
2006	\$ 19,135	\$ 15,849	\$ 10,803	\$	45,787
2007	20,350	15,388	10,170		45,908
2008	21,665	14,901	9,490		46,056
2009	22,985	14,381	8,780		46,146
2010-2014	238,090	70,340	24,088		332,518
2015-2019	418,885	97,100	28,171		544,156
2020-2024	144,445	74,366	5,940		224,751
Total	\$ 885,555	\$ 302,325	\$ 97,442	\$	1,285,322

**c. Primary Government – Business-Type Activities  
Revenue Bonds**

Revenue bonds are those bonds that are paid out of resources pledged in the enterprise funds and component units.

Enterprise funds' revenue bonds outstanding at June 30, 2005, were as follows (amounts in thousands):

Funds	Final Maturity Dates	Original Interest Rates	Amount Outstanding (000's)
Higher Education	2009-2035	2.1-7%	\$ 566,950
Bradley International Airport	2012-2032	2.5-7.65%	236,515
Clean Water	2006-2026	2-10%	521,968
Bradley Parking Garage	2006-2024	6.125-8%	51,915
Drinking Water	2026	4-5.9%	49,572
Rate Reduction Bonds	2005-2011	2.5-5%	192,740
Total Revenue Bonds			1,619,660
Plus/(Less) premiums, discounts and deferred amounts:			
Bradley International Airport			(317)
Clean Water			19,585
Other			14,613
Revenue Bonds, net			\$ 1,653,541

Bradley Airport has issued various revenue bonds to finance costs of improvements to the airport. As of June 30, 2005, the following bonds were outstanding:

- 2004 Airport Revenue Refunding Bonds in the amount of \$30.6 million. These bonds were issued in July, 2004, to redeem the 1992 Airport Revenue Refunding Bonds, and are secured by and payable solely from the gross operating revenues generated by the State from the operations of the airport and other receipts, funds or monies pledged in the bond indenture.
- 2001 Bradley International Airport Revenue Bonds in the amount of \$187.4 million and 2001 Bradley International Airport Refunding Bonds in the amount of \$18.5 million. Both bond series are secured by and payable solely from the gross operating revenues generated by the state from the operation of the airport and other receipts, funds or monies pledged in the bond indenture.

In 1994, the State of Connecticut began issuing Clean Water Fund revenue bonds. The proceeds of these bonds are to be used to provide funds to make loans to Connecticut municipalities for use in connection with the financing or refinancing of wastewater treatment projects.

In 2000, Bradley Parking Garage bonds were issued in the amount of \$53.8 million to build a parking garage at the airport.

In 2004, the State of Connecticut issued \$205.3 million of Special Obligation Rate Reduction Bonds. These bonds were issued to sustain for two years the funding of energy conservation and load management and renewable energy investment programs by providing money to the State's General Fund.

Future amounts needed to pay principal and interest on revenue bonds outstanding at June 30, 2005, were as follows (amounts in thousands):

Year Ending June 30,	Principal	Interest	Total
2006	\$ 94,483	\$ 62,144	\$ 156,627
2007	98,450	67,794	166,244
2008	108,974	64,508	173,482
2009	103,253	58,855	162,108
2010-2014	406,458	227,971	634,429
2015-2019	310,024	151,710	461,734
2020-2024	250,524	86,435	336,959
2025-2029	156,510	40,100	196,610
2030-2034	56,680	13,141	69,821
2035	34,304	3,662	37,966
Total	\$ 1,619,660	\$ 776,320	\$ 2,395,980

**d. Component Units**

Component units' revenue bonds outstanding at June 30, 2005, were as follows (amounts in thousands):

Component Unit	Final Maturity Date	Interest Rates	Amount Outstanding (000's)
CT Development Authority	2005-2019	2.35-6%	\$ 38,640
CT Housing Finance Authority	2005-2045	1.25-9.36%	3,124,853
CT Resources Recovery Authority	2005-2016	3.9-7.7%	86,575
CT Higher Education Supplemental Loan Authority	2005-2024	1.7-6.4%	130,645
Capital City Economics Development Authority	2005-2034	2.5-5%	72,500
UConn Foundation	2029	3.6-5.375%	7,350
Total Revenue Bonds			3,460,563
Plus/(Less) premiums, discounts, and deferred amounts:			
CDA			(23)
CRRA			(1,582)
CCEDA			(202)
Revenue Bonds, net			\$ 3,458,756

Revenue bonds issued by the component units do not constitute a liability or debt of the State. The State is only contingently liable for those bonds as discussed below.

Connecticut Development Authority's revenue bonds are issued to finance such projects as the acquisition of land or the construction of buildings, and the purchase and installation of machinery, equipment, and pollution control facilities. The Authority finances these projects through its Self-Sustaining Bond Program and Umbrella Program. Under the Umbrella Program, bonds outstanding at June 30, 2005 were \$3.2 million. Assets totaling \$5.6 million are pledged under the terms of the bond resolution for the payment of principal and interest on these bonds until such time as it is determined that there are surplus funds as defined in the bond resolution. Bonds issued under the Self-Sustaining Bond Program are discussed in the no-commitment debt section of this note. In addition, the Authority had \$35.4 million in general obligation bonds outstanding at year-end. These bonds were issued to finance the lease of an entertainment/sports facility and the purchase of a hockey team.

Connecticut Housing Finance Authority's revenue bonds are issued to finance the purchase, development and construction of housing for low and moderate-income families and persons throughout the State. The Authority has issued bonds under a bond resolution dated 9/27/72 and an indenture dated 9/25/95. As of December 31, 2004, bonds outstanding under the bond resolution and the indenture were \$2,720.0 million and \$404.9 million, respectively. According to the bond resolution, the following assets of the Authority are pledged for the payment of the bond principal and interest (1) the proceeds from the sale of bonds, (2) all mortgage repayments with respect to long-term mortgage and construction loans financed from the Authority's general fund, and (3) all monies and securities of the Authority's general and capital reserve funds. The capital reserve fund is required to be maintained at an amount at least equal to the amount of principal, sinking fund installments, and interest maturing and becoming due in the next succeeding calendar year (\$230.6 million at 12/31/04) on all outstanding bonds. As of December 31, 2004, the Authority has entered into interest rate swap agreements for \$756.9 million of its variable rate bonds. These agreements are similar in nature to agreements discussed in the interest rate swaps section of this note.

Connecticut Resources Recovery Authority's revenue bonds are issued to finance the design, development and construction of resources recovery and recycling facilities and landfills throughout the State. These bonds are paid solely from the revenues generated from the operations of the projects and other receipts, accounts and monies pledged in the bond indentures.

Connecticut Higher Education Supplemental Loan Authority's revenue bonds are issued to provide loans to students, their parents, and institutions of higher education to assist in the financing of the cost of higher education. These loans are issued through the Authority's Bond fund. According to the bond resolutions, the Authority internally accounts for each bond issue in separate funds, and additionally, the Bond fund includes individual funds and accounts as defined by each bond resolution.

Each Authority has established special capital reserve funds that secure all the outstanding bonds of the Authority at year-end, except as discussed next. These funds are usually maintained at an amount equal to next year's bond debt service requirements. The State may be contingently liable to restore any deficiencies that may exist in the funds in any one year in the event that the Authority is unable to do so. For the Connecticut Resources Recovery Authority, the amount of bonds outstanding at year-end that were secured by the special capital reserve funds was \$76.6 million.

The Capital City Economic Development Authority revenue bonds are issued to provide sufficient funds for carrying out its purposes. The bonds are not debt of the State of Connecticut. However, the Authority and the State have entered into a contract for financial assistance, pursuant to which the State will be obligated to pay principal and interest on the bonds in an amount not to exceed \$6.7 million in any calendar year. The bonds are secured by energy fees from the central utility plant and by parking fees subject to the Travelers Indemnity Company parking agreement.

Future amounts needed to pay principal and interest on revenue bonds outstanding at June 30, 2005, were as follows (amounts in thousands):

Year Ending June 30,	Principal	Interest	Total
2006	\$ 114,342	\$ 146,705	\$ 261,047
2007	101,662	123,239	224,901
2008	111,610	119,721	231,331
2009	470,065	114,117	584,182
2010-2014	704,510	553,168	1,257,678
2015-2019	641,170	321,664	962,834
2020-2024	494,778	213,093	707,871
2025-2029	456,736	116,299	573,035
2030-2034	325,500	39,060	364,560
2035-2039	27,765	6,196	33,961
2040-2044	12,200	1,522	13,722
2045-2049	225	6	231
Total	\$ 3,460,563	\$ 1,754,790	\$ 5,215,353

#### ***No-commitment debt***

Under the Self-Sustaining Bond program, The Connecticut Development Authority issues revenue bonds to finance such projects as described previously in the component unit section of this note. These bonds are paid solely from payments received from participating companies (or from proceeds of the sale of the specific projects in the event of default) and do not constitute a debt or liability of the Authority or the State. Thus, the balances are not included in the Authority's financial statements. Total bonds outstanding for the year ended June 30, 2005 were \$893.9 million.

The Connecticut Resources Recovery Authority has issued several bonds to fund the construction of waste processing facilities by independent contractors/operators. These bonds are payable from a pledge of revenues derived primarily under lease or loan arrangements between the Authority and the operators. Letters of credit secure some of these bonds. The Authority does not become involved in the construction activities or the repayment of the debt (other than the portion allocable to Authority purposes). In the event of a default, neither the authority nor the State guarantees payment of the debt, except for the State contingent liability discussed below. Thus, the assets and liabilities that relate to these

bond issues are not included in the Authority's financial statements. Total bonds outstanding at June 30, 2005 were \$181.4 million. Of this amount, \$57.7 million was secured by a special capital reserve fund.

The Connecticut Health and Educational Facilities Authority has issued special obligation bonds for which the principal and interest are payable solely from the revenues of the institutions. Starting in 1999, the Authority elected to remove these bonds and related restricted assets from its financial statements, except for restricted assets for which the Authority has a fiduciary responsibility. Total special obligation bonds outstanding at June 30, 2005, were \$4,727.2 million, of which \$411.0 million was secured by special capital reserve funds.

The State may be contingently liable for those bonds that are secured by special capital reserve funds as discussed previously in this section.

#### ***e. Debt Refundings***

During the year, the State issued \$447.7 million of general obligation and special tax obligation refunding bonds with an average interest rate of 4.65% to advance refund \$451.8 million of general obligation and special tax obligation refunding bonds with an average interest rate of 5.33%. The proceeds of the refunding bonds were used to purchase U.S. Government securities, which were deposited in an irrevocable trust with an escrow agent to provide for all future payments on the refunded bonds. Thus, the refunded bonds are considered defeased and the liability for those bonds have been removed from the statement of net assets. The reacquisition price exceeded the carrying amount of the old debt by \$25.7 million. This amount is being netted against the new debt and amortized over the life of the new or old debt, whichever is shorter.

The State advance refunded these bonds to reduce its total debt service payments over the next fifteen years by \$18.8 million and to obtain an economic gain (difference between the present values of the debt service payments of the old and new bonds) of \$12.2 million. As of June 30, 2005, \$3,595.8 million of outstanding general obligation, special tax obligation, and revenue bonds are considered defeased.

#### **Note 18 Risk Management**

The risk financing and insurance program of the State is managed by the State Insurance and Risk Management Board. The Board is responsible mainly for determining the method by which the State shall insure itself against losses by the purchase of insurance to obtain the broadest coverage at the most reasonable cost, determining whether deductible provisions should be included in the insurance contract, and whenever appropriate determining whether the State shall act as self-insurer. The schedule below lists the risks of loss to which the State is exposed and the ways in which the State finances those risks.

<b>Risk of Loss</b>	<b>Risk Financed by</b>	
	<b>Purchase of Commercial Insurance</b>	<b>Self-Insurance</b>
Liability (Torts):		
-General (State buildings, parks, or grounds)		X
-Other	X	
Theft of, damage to, or destruction of assets	X	
Business interruptions	X	
Errors or omissions:		
-Professional liability	X	
-Medical malpractice (John Dempsey Hospital)		X
Injuries to employees		X
Natural disasters	X	

For the general liability risk, the State is self-insured because it has sovereign immunity. This means that the State cannot be sued for liability without its permission. For other liability risks, the State purchases commercial insurance only if the State can be held liable under a particular statute (e.g. per statue the State can be held liable for injuries suffered by a person on a defective State highway), or if it is required by a contract.

For the risk of theft, of damage to, or destruction of assets (particularly in the automobile fleet), the State insures only leased cars and vehicles valued at more than \$100 thousand. When purchasing commercial insurance the State may retain some of the risk by assuming a deductible or self-insured retention amount in the insurance policy. This amount varies greatly because the State carries a large number of insurance policies covering various risks. The highest deductible or self-insured retention amount assumed by the State is \$25 million, which is carried in a railroad liability policy.

The State records its risk management activities related to the medical malpractice risk in the University of Connecticut fund, an Enterprise fund. At year-end, liabilities for unpaid claims are recorded in the statement of net assets (government-wide and proprietary fund statements) when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The liabilities are determined based on the ultimate cost of settling the claims, including an amount for claims that have been incurred but not reported and claim adjustment expenses. The liabilities are actuarially determined and the unpaid liability for medical malpractice is reported at its present value, using a discount rate of 5 percent. In the General fund, the liability for unpaid claims is only recorded if the liability is due for payment at year-end. Settlements have not exceeded coverages for each of the past three fiscal years. Changes in the claims liabilities during the last two fiscal years were as follows (amounts in thousands):

	<b>Governmental Activities</b>	<b>Business-Type Activities</b>
	<b>Workers' Compensation</b>	<b>Medical Malpractice</b>
Balance 6-30-03	\$ 265,645	\$ 8,500
Incurred claims	86,184	6,227
Paid claims	(75,148)	(4,387)
Balance 6-30-04	276,681	10,340
Incurred claims	96,245	4,937
Paid claims	(74,370)	(1,915)
Balance 6-30-05	\$ 298,556	\$ 13,362

**Note 19 Interfund Receivables and Payables**

Interfund receivable and payable balances at June 30, 2005, were as follows (amounts in thousands):

	Balance due to fund(s)										Total
	General	Transportation	Other Governmental	UConn	State Universities	Other Proprietary	Employment Security	Internal Services	Fiduciary	Component Units	
<b>Balance due from fund(s)</b>

Component Units	18,558	-	-	-	-	-	-	-	-	-	18,558
<b>Total</b>	<b>\$ 44,231</b>	<b>\$ 6,798</b>	<b>\$ 86,087</b>	<b>\$ 51,663</b>	<b>\$ 48,150</b>	<b>\$ 93,655</b>	<b>\$ 874</b>	<b>\$ 12,914</b>	<b>\$ 6,819</b>	<b>\$ 13,196</b>	<b>\$ 364,387</b>

Interfund receivables and payables arose because of interfund loans and other interfund balances outstanding at year end.

**Note 20 Interfund Transfer**

Interfund transfers for the fiscal year ended June 30, 2005, consisted of the following (amounts in thousands):

	Amount transferred to fund(s)								Total
	General	Debt Service	Transportation	Other Governmental	UConn	State Universities	Other Proprietary	Fiduciary	
<b>Amount transferred from fund(s)</b>									
General	\$ -	\$ -	\$ -	\$ 105,096	\$ 397,666	\$ 197,996	\$ 190,677	\$ -	\$ 891,435
Debt Service	-	-	26,749	1,347	-	-	-	-	28,096
Transportation	-	410,954	-	35,228	-	-	-	-	446,182
Other Governmental	127,280	11,046	1,258	42,368	104,543	27,199	47,891	2,556	364,141
Connecticut Lottery	268,515	-	-	-	-	-	-	-	268,515
Other Proprietary	194,000	-	-	4,958	-	-	9,619	-	208,577
<b>Total</b>	<b>\$ 589,795</b>	<b>\$ 422,000</b>	<b>\$ 28,007</b>	<b>\$ 188,997</b>	<b>\$ 502,209</b>	<b>\$ 225,195</b>	<b>\$ 248,187</b>	<b>\$ 2,556</b>	<b>\$ 2,206,946</b>

Transfers were made to (1) move revenues from the fund that budget or statute requires to collect them to the fund that budget or statute requires to expend them and (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due. The \$194,000 transfer to the General fund resulted from a timing difference in the reporting of the transfer by the Rate Reduction Bond Operations fund, whose reporting date was changed this year (see Note 21).

**Note 21 Restatement of Net Assets/Fund Balances**

As of June 30, 2005, the beginning net assets/fund balances for the following funds and activities were restated as follows (amounts in thousands):

	Balance 6-30-04 Previously Reported	Correction of Reported Assets/ Liabilities	Balance 6-30-04/12-31-04 as Restated
<b>Governmental Activities</b>			
Land	\$ 934,959	\$ 289,253	\$ 1,224,212
Net Assets of Governmental Activities	\$ (5,440,258)	\$ 295,098	\$ (5,151,005)
<b>Proprietary Funds and Business-Type Activities</b>			
<b>Non-Major Funds:</b>			
Rate Reduction Bond Operations	\$ (194,336)	\$ 194,336	\$ -
<b>Total Proprietary Funds</b>	<b>\$ 3,659,917</b>	<b>\$ 194,336</b>	<b>\$ 3,854,253</b>
Net Assets of Business-Type Activities	\$ 3,659,917	\$ 194,336	\$ 3,854,253

During the year, the State adjusted the beginning balance of land to correct an understatement of \$415 million and an overstatement of \$126 million in the amount of State land reported by certain State agencies in prior years. This adjustment had no effect on the Statement of Activities.

In addition, the State changed the reporting date for the Rate Reduction Bond Operations fund from June 30<sup>th</sup> to December 31<sup>st</sup>. The change was made to reflect the reporting date used for this fund in the annual report of the State Treasurer.

**Note 22 Related Organizations**

Related organizations are legally separate organizations that are not financially accountable to the State. However, these organizations are still related to the State as discussed next.

The State appoints a voting majority of the following organizations' governing boards: the Community Economic Development Fund and the Connecticut Student Loan Foundation. The State's accountability for these organizations does not extend beyond making the appointments.

**Note 23 Commitments and Contingencies**

**A. Commitments**

**Primary Government**

Commitments are defined as "existing arrangements to enter into future transactions or events, such as long-term contractual obligations with suppliers for future purchases at specified prices and sometimes at specified quantities." As

of June 30, 2005, the Departments of Transportation and Public Works had contractual commitments of approximately \$1,067 million for infrastructure and other construction projects. Additionally, other commitments were approximately as follows:

School construction and alteration grant program \$3,760 million.

Clean and drinking water loan programs \$166 million.

Economic and community development grant/loan programs \$140 million.

Various programs and services \$853 million.

All commitments are expected to be funded by federal grants, bond proceeds, and other resources.

In addition, the State has authorized a loan to the Connecticut Resources Recovery Authority (a component unit) of up to \$115 million to support the repayment of the Authority's debt for one of its facilities and to minimize the amount of tipping fee increases chargeable to the towns which use the facility. As of June 30, 2005, the Authority had drawn \$21.5 million on these funds.

#### **Component Units**

As of December 31, 2004, the Connecticut Housing Finance Authority had mortgage loan commitments of approximately \$92 million.

#### **B. Contingent Liabilities**

The State entered into a contractual agreement with H.N.S. Management Company, Inc. and ATE Management and Service Company, Inc. to manage and operate the bus transportation system for the State. The State shall pay all expenses of the system including all past, present and future pension plan liabilities of the personnel employed by the system and any other fees as agreed upon. When the agreement is terminated the State shall assume or make arrangements for the assumption of all the existing obligations of the management companies including but not limited to all past, present and future pension plan liabilities and obligations.

In 2002 the City of Waterbury issued \$97.5 million of General Obligation Special Capital Reserve Fund Bonds. These bonds are secured by a Special Capital Reserve Fund for which the State may be contingently liable as explained previously in Note 17 – Component Units.

Amounts received or receivable by the State from grant agencies are subject to audit and adjustment by grantor agencies, mainly the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the federal government cannot be determined at this time, although the State expects such amounts, if any, to be immaterial, except as discussed next.

As a result of a recent federal audit of the Medicaid program, the federal government is claiming that it had over paid the State \$32.8 million for its share of Medicaid costs paid by State. The State paid back \$7.5 million of the

amount in question and is contending that no additional funds should be paid back to the federal government. As of June 30, 2005, the State now believes that there is a reasonable possibility that it will be required to pay back an additional \$7.6 million to the federal government as a result of the audit.

#### **C. Litigation**

The State, its units and employees are parties to numerous legal proceedings, many of which normally occur in government operations. Most of these legal proceedings are not, in the opinion of the Attorney General, likely to have a material adverse impact on the State's financial position.

There are, however, several legal proceedings which, if decided adversely against the State, may require the State to make material future expenditures for expanded services or capital facilities or may impair future revenue sources. It is neither possible to determine the outcome of these proceedings nor to estimate the possible effects adverse decisions may have on the future expenditures or revenue sources of the State.

#### **Note 24 Special Items**

Special items are significant transactions or other events within management's control that are either unusual in nature or infrequent in occurrence. As of June 30, 2005, the State reported the following special items:

Transfers to the General fund in the amount of \$15 million from the following component units:

Connecticut Innovations, Incorporated	\$5.0 million
Connecticut Development Authority	\$10.0 million.

During the year, the State completed work on the Hartford Convention Center, which was placed into service in the month of June. At the same time, the State transferred control of the Convention Center to the Capital City Economic Development Authority (a component unit) which will be responsible for managing the facilities. The Authority recorded the Convention Center in its financial statements at a cost of \$220.3 million, of which \$165.4 million represents capital contributions from the State.

Other special items were reported by the Connecticut Resources Recovery Authority (a component unit) and consisted of a gain on sale of Enron claim of \$28.5 million and a loss on early retirement of debt of \$6.1 million.

#### **Note 25 Subsequent Events**

In November 2005, the state issued \$300 million of general obligation bonds. The bonds will mature in years 2006 through 2025 and bear interest rates ranging from 4.0% to 5.0%.

In December 2005, \$250 million of special tax obligation bonds for transportation infrastructure programs were issued. These bonds will mature in years 2006 through 2025 and bear interest rates ranging from 4.0% to 5.0%.

In February 2006, the State issued \$290 million of general obligation bonds. The bonds will mature in years 2006

through 2025 and bear interest rates ranging from 3.17% to 4.21%.

In February 2006, the State issued \$10 million of Bond Anticipation Notes. The notes will mature in years 2007 and bear an interest rate of 5.0%.

In March 2006, \$138.2 million of University of Connecticut general obligation and general obligation refunding bonds were issued. The bonds will mature in years 2006 through 2026 and bear interest rates ranging from 3.20% to 4.22%.

In May 2006, the State issued \$200 million of general obligation bonds. The bonds will mature in years 2007 through 2026 and bear interest rates ranging from 3.6% to 5.0%.

In June 2006, the State issued \$235 million of general obligation bonds. The bonds will mature in years 2007 through 2026 and bear interest rates ranging from 3.5% to 5.0%.

In August 2006, the State issued \$15 million of parking and energy fee revenue bonds. The bonds are special obligations of the Capital City Economic Development Authority, a component unit of the State. However, the State is contractually obligated to make debt service payments on the bonds in an amount not to exceed \$6.7 million in any calendar year. The bonds will mature in years 2008 through 2029 and bear an interest rate of 5.0%.

In September 2006, the Connecticut Health and Educational Facilities Authority, a component unit of the State, determined it needed to retire approximately \$15 million of outstanding revenue bonds by November 1, 2006 to preserve their tax-exempt status. The bonds were issued in 1996 to finance various projects of a nursing home facility, which went into receivership in 2005 and was recently sold. The Authority also determined that it had approximately \$10 million available to retire the bonds, including \$8 million it had received from the sale of the facility. Since the bonds are insured by a Special Capital Reserve Fund (as discussed previously in Note 17), the State is obligated to fund the deficiency of \$5 million being faced by the Authority. The State decided, however, that instead of drawing on the Special Capital Reserve Fund to fund the deficiency, that it would advance the \$5 million to the Authority from a 2007 budgeted appropriation, as allowed by the General Statutes.

## ***Capital Projects Funds***

### ***State Facilities:***

to account for proceeds of bond issues and other sources and the subsequent expenditures for the construction of various state buildings and structures.

### ***Infrastructure:***

to account for the proceeds of bond issues and related capital project grants to finance the State's transportation infrastructure program over a ten-year period. This program encompasses the planning, acquisition, removal, construction, equipping, reconstruction, repair, rehabilitation and improvement of, and acquisition of easements and rights-of-way with respect to, State highways and bridges, projects on the interstate highway system, alternate highway projects in the interstate substitution program (the "interstate trade-in program"), waterway facilities, aeronautic facilities (excluding Bradley International Airport), the highway safety program, maintenance garages and administrative facilities of the Department, payment of the State's share of the costs of the local bridge program and payment of State contributions to the local bridge revolving fund.

### ***Other Transportation:***

to account for the proceeds of bond issues and related grants to be used for other transportation related capital projects.

## ***Enterprise Funds***

### ***Bradley Parking Garage:***

In 2000, Bradley parking garage bonds were issued in the amount of \$53,800,000. These bonds were issued to build a parking garage at the airport.

### ***Second Injury and Compensation Assurance:***

An extension of the Worker's compensation Act, the fund is currently used to pay claimants whose injuries are made more severe because of a pre-existing condition, and in cases where an injured worker receiving worker's compensation subsequently undergoes an incapacitating relapse.

### ***Drinking Water:***

to account for resources used to provide loans to municipalities to finance activities needed to achieve or maintain compliance with the Safe Drinking Water Act.

## ***Component Units***

### ***Connecticut Development Authority:***

the Connecticut Development Authority is a public instrumentality and political subdivision of the State. The Authority was created to stimulate industrial and commercial development within the State through its Self-Sustaining Bond Program, its Umbrella Program and its Insurance Program.

### ***Connecticut Resources Recovery Authority:***

the Connecticut Resources Recovery Authority is a public instrumentality and political subdivision of the State. The Authority is responsible for implementing the State's solid waste management plan, which includes design, construction and operation of resources recovery facilities and the marketing of recovered products.

### ***Connecticut Higher Education Supplemental Loan Authority:***

the Connecticut Higher Education Supplementary Loan Authority is a public instrumentality and political subdivision of the State. The Authority was created to assist students, their parents and institutions of higher education to finance the cost of higher education through its bond funds.

### ***Capital City Economic Development Authority:***

the Capital City Economic Development Authority is a public instrumentality of the state. The authority was created in 1998 to use municipal and state financial resources for the purpose of building a variety of Hartford based projects ranging from facilities to accommodate the exhibition, hospitality and tourism industries to downtown residential housing.

### ***Connecticut Innovations, Incorporated:***

Connecticut Innovations is a public instrumentality and political subdivision of the State. It was established to stimulate and promote technological innovation and application of technology within Connecticut by providing financial technical assistance.
