

MERS Litigation Services RFP Questions

1. My firm represents pension plans in financial fraud (securities and antitrust) monitoring and litigation. Does this RFP cover that area, or should we watch for a separate one?

No. This RFP is focused solely on the general litigation matters relating to the administration of the Connecticut Municipal Employees Retirement System (CMERS). The Connecticut State Treasurer is responsible for the management of the CMERS investment fund. Any RFP issued to provide securities and antitrust litigation services would be issued by that office.
