December 10, 2013
State of Connecticut
State Employees Retirement Commission
55 Elm Street
Hartford, CT 06106

Members of the Commission:
Connecticut General Statutes Section 5-155a governs the operation of the Connecticut State Employees Retirement System (SERS). At the direction of the Commission, the actuary provides a roll forward valuation of the Retirement System as an informational update to our projected required employer contribution amount from our most recent biennial actuarial valuation. It is not recommended that the results of a roll forward valuation be used as the basis of adjusting the scheduled contribution requirements but rather as information as to the expected condition of the System at the end of the interim fiscal year.

This report provides the results of the roll forward actuarial valuation of the Retirement System prepared as of June 30, 2013. The investment performance for the fiscal year ending June 30, 2013 was favorable. The fund returned $11.68 \%$, which is higher than the $8.00 \%$ that is assumed. We have not performed a reconciliation of census data or development of liabilities as of June 30, 2013. We use roll forward techniques from the June 30, 2012 biennial valuation to best estimate what payroll and liabilities will be as of June 30, 2013. Therefore, the only actual experience incorporated in the results of a roll forward valuation is the investment return for the plan year. The roll forward results reflecting this favorable investment experience show that it could be expected that the required employer rate would be slightly less than the rate determined in the latest actuarial valuation of the System.

The actuarial assumptions recommended by the actuary and adopted by the Commission are reasonably related to the experience under the System and to reasonable expectations of anticipated experience under the System. The assumptions and methods used for funding purposes meet the parameters set for the disclosures presented in the financial section by Governmental Accounting Standards Board (GASB) Statement Nos. 25 and 27. The funding objective of the plan is that contribution rates over time will remain level as a percent of payroll. The valuation method used is the projected unit credit method. Gains and losses are reflected in the unfunded accrued liability which is being amortized as a level percent of payroll within an 18 -year period. This period is based on the funding policy of SERS that amortizes the unfunded accrued liability over a declining period of years, starting with 40 years as of July 1, 1991.

This is to certify that the valuation was prepared in accordance with principles of practice prescribed by the Actuarial Standards Board, and that the actuarial calculations were performed by qualified actuaries in accordance with accepted actuarial procedures, based on the current provisions of the retirement system and on actuarial assumptions that are internally consistent and reasonably based on the actual experience of the System.

## Members of the Commission

December 10, 2013
Page 2

Future actuarial results may differ significantly from the current results presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Since the potential impact of such factors is outside the scope of a normal annual actuarial valuation, an analysis of the range of results is not presented herein.

The undersigned meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Sincerely yours,

Thomas J. Cavanaugh, FSA, FCA, MAAA, EA
Chief Executive Officer

John J. Garrett, ASA, FCA, MAAA
Principal and Consulting Actuary

Edward J. Koebel, FCA, MAAA, EA

## CONNECTICUT STATE EMPLOYEES RETIREMENT SYSTEM ROLL FORWARD VALUATION REPORT PREPARED AS OF JUNE 30, 2013

## SECTION I - SUMMARY OF PRINCIPAL RESULTS

1. For convenience of reference, the principal results of the 2013 roll forward valuation and the two fiscal year's Annual Required Employer Contributions as determined in the 2012 biennial valuation are summarized below:
$\left.\begin{array}{|l|c:c:c||}\hline \text { Valuation Date } & \begin{array}{c}\text { June 30, 2013 } \\ \text { Roll Forward } \\ \text { Valuation }\end{array} & \begin{array}{c}\text { June 30, 2013 } \\ \text { Projected from } \\ \text { 2012 Valuation }\end{array} & \text { June 30, } 2012\end{array}\right]$ 47,868
2. Schedule A of this report presents the development of the actuarial value of assets. Schedule C details the actuarial assumptions and methods employed. Schedule E gives a summary of the benefit and contribution provisions of the plan.

## SECTION II - ASSETS

1. As of June 30, 2013, the total market value of assets amounted to $\$ 9,182,442,986$ as reported by the Comptroller's Office compared to $\$ 8,468,479,084$ as of June 30, 2012. This represents an investment return of $11.68 \%$ for the fiscal year (which may be compared to the assumed investment return of $8.00 \%$ ). The market value of assets as of June 30, 2013 includes $\$ 5,839,847$ of receivables. The actuarial value of assets used for the current valuation was $\$ 9,784,500,362$. Schedule A shows the development of the actuarial value of assets as of June 30, 2013.
2. Schedule B shows receipts and disbursements of the System for the two years preceding the valuation date and a reconciliation of the fund balances at market value.

## SECTION III - CONTRIBUTIONS PAYABLE BY EMPLOYER

The following table shows the amount and rate of contribution payable by the employer as determined from the June 30, 2012 valuation for the 2014/2015 fiscal year.

|  | Contribution for | Contribution Amount | Contribution Rate |
| :--- | :--- | :---: | :---: |
| A. | Employer Normal Cost | $\$ 260,807,224$ | $8.31 \%$ |
| B. | Unfunded Actuarial Accrued Liabilities <br> $(18$ year level percent of payroll amortization) | $\$ 1,118,381,286$ | $35.63 \%$ |
| C. | Total (A. + B.) | $\$ 1,379,188,510$ | $43.94 \%$ |

## SECTION IV - ACCOUNTING INFORMATION

1. Governmental Accounting Standards Board Statements 25 and 27 set forth certain items of required supplementary information to be disclosed in the financial statements of the System and the employer. One such item is the schedule of funding progress as shown below.

## SCHEDULE OF FUNDING PROGRESS

(Dollar amounts in thousands)

| Actuarial <br> Valuation <br> Date | Actuarial <br> Value of <br> Assets <br> (a) | Actuarial Accrued Liability (AAL) <br> - PUC <br> (b) | Unfunded AAL <br> (UAAL) $(b-a)$ | Funded <br> Ratio $(a / b)$ | Covered Payroll (c) | UAAL as a <br> Percentage of Covered Payroll $((b-a) / c)$ |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 6/30/2007 | \$9,584,970 | \$17,888,065 | \$8,303,095 | 53.6\% | \$3,310,351 | 250.8\% |

*Roll forward valuation.
All figures prior to 6/30/2010 were reported by the prior actuarial firm.
2. The following shows the schedule of employer contributions (all dollar amounts are in thousands).

| Fiscal <br> Year <br> Ending <br> June 30 | Valuation <br> Date <br> Ending <br> June 30 | Annual Required <br> Contribution | Actual <br> Contribution | Percentage <br> Contributed |
| :---: | :---: | :---: | :---: | :---: |
| 2010 | 2008 | $\$$ | 897,428 | $\$$ |
| 2011 | 2008 | 944,077 | 720,527 |  |
| 2012 | 2011 | 926,372 | 825,801 | $80.3 \%$ |
| 2013 | 2011 | $1,059,652$ | 926,343 | 87.5 |
| 2014 | 2012 | $1,268,935$ | $1,058,113$ | $100.0 \%$ |
| 2015 | 2012 | $1,379,189$ | $\mathrm{~N} / \mathrm{A}$ | $99.9 \%$ |
|  |  |  | $\mathrm{~N} / \mathrm{A}$ | $\mathrm{N} / \mathrm{A}$ |

All figures before the valuation year ending 6/30/2010 were reported by the prior actuarial firm.
3. The information presented in the required supplementary schedules was determined as part of the actuarial valuation at June 30, 2013. Additional information as of the latest actuarial valuation follows.

| Valuation date | $6 / 30 / 2013$ |
| :--- | :--- |
| Actuarial cost method |  |
| Amortization method | Projected Unit Credit |
| Remaining amortization period | Level percent of payroll, closed |
| Asset valuation method | 18 years |
| Actuarial assumptions: | 5 -year smoothed actuarial value |
| Investment rate of <br> return* <br> Projected salary <br> increases* <br> Cost-of-living adjustments <br> Social Security Wage Base <br> *Includes inflation at | $3.00 \%$ |

| Asset Balance as of the End of Year | \$ 9,182,442,986 | \$ 8,468,479,084 |
| Rate of Return | 11.68\% | ( 1.07)\% |

## SCHEDULE C

## OUTLINE OF ACTUARIAL ASSUMPTIONS AND METHODS

Adopted or reaffirmed by the Commission for the June 30, 2012 and later valuations.
VALUATION INTEREST RATE: 8.00\% per annum, compounded annually, net of expenses.

## SALARY INCREASES:

No salary increases are assumed for the 2012 \& 2013 fiscal years. From fiscal year 2014 through 2016 salary increases are assumed to be 1\% less than the table below. After the 2016 fiscal year, salary increases are assumed to continue using the same service schedule prior to 2012, which are as follows:

| Years of Service | Rate |
| :---: | :---: |
| 0 | $10.00 \%$ |
| 1 | $20.00 \%$ |
| 2 | $10.00 \%$ |
| 3 | $6.25 \%$ |
| 4 | $6.00 \%$ |
| 5 | $5.75 \%$ |
| 6 | $5.50 \%$ |
| 7 | $5.50 \%$ |
| 8 | $5.50 \%$ |
| 9 | $5.50 \%$ |
| 10 | $5.00 \%$ |
| 11 | $5.00 \%$ |
| 12 | $5.00 \%$ |
| 13 | $5.00 \%$ |
| 14 | $5.00 \%$ |
| $15+$ | $4.00 \%$ |

## COST OF LIVING ADJUSTMENTS:

| Group | Rate |
| :---: | :---: |
| Pre July 1, 1980 Retirees | $3.60 \%$ |
| July 1, 1980 - June 30, 1997 Retirees | $3.00 \%$ |
| July 1, 1997 - October 1, 2011 Retirees | $2.60 \%$ |
| Post October 1, 2011 Retirees | $2.30 \%$ |

SOCIAL SECURITY WAGE BASE INCREASES: 3.50\% per annum.
PAYROLL GROWTH ASSUMPTION: 3.75\% per annum.

IMPACT OF LONGLEY DECISION: Benefits for members retiring from service on or after the Longley decision date are assumed to increase by $0.084 \%$ as a result of the revised treatment of longevity pay. Retroactive application of Longley has been reflected in this valuation to the extent impacted retiree benefits have been recalculated.

SEPARATIONS BEFORE SERVICE RETIREMENT: Representative values of the assumed annual rates of separation before service retirement are as follows:

## WITHDRAWAL

| Annual Rates of Non-Hazardous Withdrawal* |  |  |  |  |  |  |  |  |

| 80 | 100.0\% | 100.0\% | 100.0\% |

[^1]DEATHS AFTER RETIREMENT: The RP2000 Mortality Table for Annuitants and Non-Annuitants projected with Scale AA 15 years for men (set back 2 years) and 25 years for women (set back 1 year) is used for the period after retirement and for dependent beneficiaries. Representative values of the assumed annual rates of mortality are as follows:

| Age | Men | Women | Age | Men | Women |
| :---: | :--- | :--- | :---: | :--- | :---: |
| 40 | $0.086 \%$ | $0.044 \%$ | 65 | $0.810 \%$ | $0.760 \%$ |
| 45 | 0.107 | 0.069 | 70 | 1.425 | 1.311 |
| 50 | 0.142 | 0.101 | 75 | 2.460 | 2.083 |
| 55 | 0.219 | 0.198 | 80 | 4.483 | 3.482 |
| 60 | 0.414 | 0.392 | 85 | 8.075 | 5.981 |

In our opinion, the projection of the mortality rates with Scale AA continues to provide a sufficient margin in the assumed rates of mortality to allow for additional improvement in mortality experience.
$55 \%$ (men) and $80 \%$ (women) of the RP-2000 Disability Mortality Table is used for the period after disability.
ASSET METHOD: Actuarial Value, as developed in Schedule B. The actuarial value of assets recognizes a portion of the difference between the market value of assets and the expected value of assets, based on the assumed valuation rate of return. The amount recognized each year is $1 / 5$ of the difference between market value and expected actuarial value. In addition, the actuarial value of assets cannot be less than $80 \%$ or more than $120 \%$ of the market value of assets.

VALUATION METHOD: Projected Unit Credit cost method. See Schedule E for a brief description of this method.

SPOUSES: For members who have elected spouse coverage, husbands are assumed to be three years older than their wives.

PERCENT MARRIED: $80 \%$ of active members are assumed to be married with an average of two children who are on average age 12.

## OTHER ASSUMPTIONS:

- $20 \%$ of Pre-Retirement deaths are assumed to be service related,
- $50 \%$ of Tier I Hazardous Employees are assumed to be State Police,
- To take into account State Police Supplemental Benefits and the offset of Workers Compensation, Social Security, and Non-Rehabilitation Earnings, the following minimum and maximum benefits as a percent of salary are assumed for disability benefits:

|  | Minimum |  |
| :--- | :---: | :---: |
|  | $60 \%$ | Maximum <br> All Other Members |
|  | $40 \%$ | $60 \%$ |

## SCHEDULE D

## ACTUARIAL COST METHOD

The valuation is prepared on a projected benefit basis, under which the present value, at the interest rate assumed to be earned in the future (currently 8.00\%), of each member's expected benefits at retirement or death is determined, based on age, service and sex. The calculations take into account the probability of a member's death or termination of employment prior to becoming eligible for a benefit, as well as the possibility of his terminating with a service, disability or survivor's benefit. Future salary increases are also anticipated. The present value of the expected benefits payable on account of the active members is added to the present value of the expected future payments to retired members, beneficiaries and members entitled to deferred vested benefits to obtain the present value of all expected benefits payable from the System on account of the present group of members and beneficiaries.

The Projected Unit Credit cost method is used to develop employer contributions. The employer contributions required to support the benefits of the System consist of a normal contribution and an unfunded actuarial accrued liability contribution.

The Actuarial Accrued Liability is determined as the present value of benefits accrued to the valuation date, where the accrued benefit for each active member is the pro-rata portion (based on service to the valuation date) of the projected benefit payable at termination, death, disability or retirement. The Actuarial Accrued Liability for deferred vested and inactive members is the present value as of the valuation date of their remaining benefit payments.

The normal contribution is determined as the present value of the portion of the projected benefit attributable to the year following the valuation date.

The Unfunded Actuarial Accrued Liability is determined by subtracting the Actuarial Value of Assets from the Actuarial Accrued Liability.

## SCHEDULE E

## SUMMARY OF MAIN SYSTEM PROVISIONS AS INTERPRETED FOR VALUATION PURPOSES

The Connecticut State Employees Retirement System (CT SERS) is a defined benefit pension plan established by the Connecticut General Assembly for the purpose of providing retirement allowances and other benefits for State employees in Connecticut, and their survivors and other beneficiaries.

## Eligibility Requirements

Tier I

Tier II

Tier IIA

Tier III

## Final Average Earnings (FAE)

Tier I, II, and IIA

Tier III

## Normal Retirement Benefit

Eligibility

All State Employees, Elected Officials and their Appointees hired prior to July 1, 1984. Those employees hired between July 1, 1982 and January 1, 1984 could elect to move to Tier II.

All State Employees, Elected Officials and their Appointees hired on or after July 1, 1984.

All State Employees, Elected Officials and their Appointees hired on or after July 1, 1997.

All State Employees, Elected Officials and their Appointees hired on or after July 1, 2011.

Average Salary of the three highest paid years of service. Effective January 1, 1986, no one year's earnings can be greater than $130 \%$ of the average of the two preceding years in calculating the Final Average Earnings.

Average Salary of the five highest paid years of service. No one year's earnings can be greater than 130\% of the average of the two preceding years in calculating the Final Average Earnings.

Tier I Hazardous - 20 years of credited service.
Tier I Plans B and C - Earliest of age 55 with 25 years of service, age 60 with 10 years of service, or age 70 with 5 years of service.

Tier II Hazardous - 20 years of credited service.
Tier II and IIA - For those who will be eligible for retirement on or before July 1, 2022, the earliest of age 62 with 10 years of vesting service (effective July 1, 1992), age 60 with 25 years
of vesting service, age 70 with 5 years of vesting service, or age 62 with 5 years of actual state service for terminations on or after July 1, 1997.

For those who will not be eligible for retirement on or before July 1, 2022, the earliest of age 65 with 10 years of vesting service, age 63 with 25 years of vesting service, age 70 with 5 years of vesting service.

Tier III Hazardous - Earlier of Age 50 and 20 years of benefit service or 25 years of benefit service.

Tier III - Age 63 and 25 years of benefit service or Age 65 and 10 years of benefit service.

Benefit
Tier I Hazardous - 50\% of FAE plus $2 \%$ for each year of service in excess of 20.

Tier I Plan B - $2 \%$ of FAE times years of service up to age 65. Thereafter, $1 \%$ of FAE up to $\$ 4,800$, plus $2 \%$ of FAE in excess of $\$ 4,800$ times years of service. At age 70 , greater of $1.25 \%$ of FAE up to $\$ 4,800$ plus $2.5 \%$ of FAE in excess of $\$ 4,800$ times years of service (maximum 20 years) or 1.0\% of FAE up to $\$ 4,800$ plus $2 \%$ of FAE in excess of $\$ 4,800$ times year of service. Minimum benefit with 25 years is $\$ 833.34$ per month.

Tier I Plan C - 2\% of FAE times years of service. At age 70, greater of $2.5 \%$ of FAE times years of service (maximum 20 years) or $2.0 \%$ of FAE times years of service. Minimum benefit with 25 years is $\$ 833.34$ per month.

Tier II,IIA and III Hazardous - $2.5 \%$ of FAE times years of service up to 20 years plus $2.0 \%$ of FAE times years of service in excess of 20 years, if any. Minimum benefit with 25 years is $\$ 360$ per month.

Tier II, IIA and III All Others - 1.333\% of FAE plus 0.50\% of FAE in excess of year's breakpoint*, times years of service from October 1, 1982 up to 35 years plus 1.625\% of FAE times years of service in excess of 35 years, if any. Minimum benefit with 25 years if $\$ 360$ per month.

* $\$ 10,700$ increased by $6 \%$ each year after 1982, rounded to nearest $\$ 100$ but not greater than Social Security Covered Compensation.

## Early Retirement Benefit

Eligibility

Hazardous - None.
Tier I - Age 55 with 10 years of service.
Tier II and IIA - Age 55 with 10 years of service.
Tier III - Age 58 with 10 years of service.

Benefit
Tier I - Benefit is Normal Retirement Benefit reduced for retirement prior to age 60 with less than 25 years of service.

Tier II, IIA and III - Benefit is Normal Retirement Benefit reduced 0.25\% (effective July 1, 1991) for each month prior to age 60 if at least 25 years of service or age 62 if at least 10 but less than 25 years of service.

For those who retire on or after October 2, 2011 but prior to meeting the age and service requirements for a normal retirement, will be subject to a benefit reduced by $0.50 \%$ for each month prior to Normal Retirement.

## Disability Retirement Benefit

Tier I

Tier II, IIA and III
For non-service disabilities occurring prior to age 60 with at least 5 years of service, benefit is $3 \%$ of FAE times years of service; maximum benefit is $1.667 \%$ of FAE times year of service projected to age 65.

For service disabilities occurring prior to age 60, benefit is $1.667 \%$ of Salary times years of service projected to age 65 (maximum 30 years).

Exception: State Police benefit is equal to the normal retirement benefit if more than 20 years of service. State Police also receives an additional benefit of $\$ 360$ per month plus $\$ 300$ to spouse plus $\$ 300$ to a surviving dependent child.

Prior to age 65 for service related disability or at any age with at least 10 years of service, benefit is $1.333 \%$ of FAE plus $0.50 \%$ of FAE in excess of the year's breakpoint, times service projected to age 65 (maximum 30 years).

Eligibility

Benefit

## Pre-Retirement Spouse's Benefit

Tier I

Tier II, IIA and III

Tiers I, II, IIA and III

Tier I-10 years of service.
Tier II and IIA - Effective July 1, 1997, 5 years of actual state service, 10 years of vesting service, or age 70 with 5 years of service.
$\underline{\text { Tier III - } 10 \text { years of benefit service. }}$

Tier I - Benefit is payable at Normal Retirement Age or an Early Retirement Benefit is payable at age 55.

Tier II and IIA - Benefit is payable at Normal Retirement Age or an Early Retirement Benefit is payable at age 55.

Tier III - Benefit is payable at Normal Retirement Age or an Early Retirement Benefit is payable at age 58.

State Police - Survivor benefits to spouse of $\$ 670$ per month plus $\$ 300$ to a surviving dependent child.

If eligible for early or normal retirement, 50\% of the average of the Life Benefit and the 50\% Joint \& Survivor Benefit the member would have received.

If not eligible for retirement but with 25 years of service, the same benefit calculated as though age 55 using service and earnings at death.

If not eligible for retirement, return of contributions (5\% interest).

If eligible for early or normal retirement, 50\% of the 50\% Joint \& Survivor Benefit the member would have received.

If not eligible for retirement but with 25 years of service, the same benefit calculated as though age 55 using service and earnings at death.

If not eligible for retirement, return of contributions (5\% interest).

If death is due to employment and there are dependent children under age 18 , spouse will be paid $\$ 100,000$ in 10 annual installments while living and not remarried. In addition, $\$ 50$ per month will be paid to each child while under age 18.

If death is due to employment and there are no dependent children under age 18, spouse will be paid $\$ 50,000$ in not less than 10 annual installments.

## Payment Options

## Cost of Living Adjustments (COLA)

## Member Contributions

Tier I - Hazardous

Tier I - Plan B

Tier I - Plan C
Tier II - Hazardous
Tier II - All Others
Tier IIA \& III - Hazardous
Tier IIA \& III - All Others
$50 \%$ or $100 \%$ Joint and Survivor (Normal Form if married). Straight life annuity (Normal Form if not married).
10 or 20 year certain and life annuity.

Annual adjustments each July 1 of up to $5 \%$ for retirements prior to July 1, 1980; 3\% for retirements after July 1, 1980. For members (and beneficiaries) not covered by Social Security and age 62 and over, the maximum increase is $6 \%$.

For employees retiring after June 30, 1999, the annual adjustment will be 60\% of the increase in CPI up to $6 \%$ and $75 \%$ of the increase in the CPI over $6 \%$. This adjustment will be no less than $2.5 \%$ and no greater than $6 \%$.

Employees retiring between July 1, 1997 and June 30, 1999 made an irrevocable choice between the above formula and a fixed 3\% annual adjustment.

An employee from Tier IIA must have at least 10 years of actual state service or directly make the transition into retirement in order to be eligible for annual adjustments.

For employees retiring on or after October 2, 2011, the minimum COLA shall be $2.0 \%$ and the maximum COLA shall be $7.5 \%$.

4\% of earnings up to Social Security Taxable Wage Base plus $5 \%$ of earnings above that level.

2\% of earnings up to Social Security Taxable Wage Base plus $5 \%$ of earnings above that level.

5\% of earnings.
4\% of earnings.
None.
5\% of earnings.
2\% of earnings.

Individuals hired on or after July 1, 2011 otherwise eligible for the Alternate Retirement Plan ("ARP") shall be eligible to be members of the new Hybrid Plan in addition to their existing choices. Individuals who are currently members of the ARP shall be eligible to join the Hybrid Plan on a one time option at the full actuarial cost. The Hybrid Plan shall have defined benefits identical to Tier II/IIA and Tier III for individuals hired on or after July 1, 2011, but shall require employee contributions $3 \%$ higher than the contribution required from the Applicable Tier II/IIA/III Plan. An employee shall have the option, upon leaving state service, of accepting the defined benefit amount, or electing to receive a return of his/her contributions to the Hybrid Plan, plus a 5\% employer match, plus $4 \%$ interest ("cash out option"). In the event the employee elects the cash out option, he/she shall permanently waive any entitlement they may have to health insurance as a retired state employee unless they convert the cash out option to a periodic payment as would be required under the current ARP Plan.

[^0]:    * Before corridor constraints, if applicable.
    ** Includes receivables of: $\$ 5,839,847$ at 6/30/2013 and $\$ 6,635,867$ at 6/30/2012.

[^1]:    * These rates also apply for Tier I Plan B and Tier I Plan C members upon attainment of age 60 with at least 10 years of service.
