RE: Forecast of Reduction to State of Connecticut Actuarially Determined Employer Contribution (ADEC) Resulting from Past and Future Transfers

Dear Mr. Scanlon:

We have been requested to provide a forecast of the reductions to the State's ADEC for both the State Employees Retirement System (SERS) and the Teachers' Retirement System (TRS) resulting from the additional contributions to these System's assets from the Budget Reserve Fund (BRF) and General Fund Surplus. The table below summarizes the amount of these transfers.

| Past Transfer Amounts and Expected Transfer Amounts for 2025 | | | | | | | | | | | |
|--|----|---------------|----|---------------|-------|---------------|--|--|--|--|--|
| Valuation Year | | State | | Teachers | Total | | | | | | |
| 2020 | \$ | 61,621,659 | \$ | - | \$ | 61,621,659 | | | | | |
| 2021 | | 714,663,947 | | 903,642,800 | | 1,618,306,747 | | | | | |
| 2022 | | 3,203,691,833 | | 903,642,800 | | 4,107,334,633 | | | | | |
| 2023 | | 1,118,546,305 | | 828,062,757 | | 1,946,609,062 | | | | | |
| 2024 | | 513,939,722 | | 419,138,931 | | 933,078,653 | | | | | |
| Total | \$ | 5,612,463,466 | \$ | 3,054,487,288 | \$ | 8,666,950,754 | | | | | |

Forecast of Impact on ADEC

These transfer amounts increase the value of assets in the Systems' actuarial valuation and effectively have a corresponding decrease in the Systems' Unfunded Actuarial Accrued Liability (UAAL) as of the valuation date. The UAAL is amortized with future payments which reflect an interest and principal component. By reducing the UAAL with each transfer, the future interest payments are reduced. The table below provides the forecast of savings to the State's and Teacher's ADEC due to the transfers shown above.
